B.C. Freight Rates Motion Is Commons Test Vote Scores Hurry In Autos To Stake Claims On Prairies Near Border of Montana

Reid, Liberal, New Westminster, Objecting to Railway Freight Rates at Present Charged, Moves for Early Hearing of B.C. and Prairie Appeal From Rail Board Ruling; Bennett Says if Motion Should Carry His Ministry Would Go Out

Canadian Press

Ottawa, May 20.—Thomas Reid, Liberal member for New Westminster, again discussed in the Commons this afternoon the subject of railway freight rates applying to the Pacific Coast. He moved an amendment to the motion to go into supply, after declaring a wide divergence existed between the domestic and export grain rates which acted detrimentally to the poultry and dairying industry of the Pacific province.

The amendment read: "Whereas on September 30, 1930, petitions in appeal from a decision of the Board of Railway Commissioners were filed by representatives of the provinces of Alberta, Saskatchewan and British Columbia, praying for a hearing and decision on the claims therein set forth for a reduction in the domestic freight rates in effect within these provinces; and

Whereas, delay in rendering such decision has brought about a condition of confusion and instability which has seriously affected the poultry and dairying industries of British Columbia as well as certain important interests in the other provinces; and

"The House be of the opinion an early date should forthwith be fixed for a hearing of the said petition."

BENNETT SPEAKS

"I sympathized with the honorable gentleman when he spoke yesterday," said Premier Bennett, "because then he spoke for himself and the people of British Columbia. I have less sympathy with him to-day because to-day he speaks for his party."

The motion was a motion of want of confidence, said Mr. Bennett. Mr. Reid in effect proposed to destroy the government because during the time it had been in office it had failed to hear the petition. The former government, of which Mr. Reid had been a supporter, had heard the appeal in 1929 and had plenty of time to give its decision prior to the general election, but had not done so, said the Premier. The appeal was from a decision of the Board of Railway Commissioners rendered in 1926.

THEY WERE BUSY

It was possible, said Mr. Bennett, that the Liberal Government had good reasons for not giving judgment, but there was certainly ample reason why the present government during its short term in office had not heard the appeal. It could only have been heard when the house was not in session from September 30 to March 12, and during the greater part of that time he and other members of the government had been away at the Imperial Conference in London.

WOULD GO OUT

"If the motion passes this government goes out," said Mr. Bennett. (Concluded on Page 2)

Free Use Of Canada Copyright Works By Churches Is Opposed

Canadian Press

Ottawa, May 20.—The special Commons committee hearing representatives with regard to the projected amendments to the Copyright Act continued its work to-day.

The first witness called was E. Blake Robertson of Ottawa, who appeared on behalf of the fair and exhibitions of Canada, asking they be allowed the use of music, whether copyrighted or not. There were more than 900 fairs and exhibitions in Canada, none of which were operated for profit, he said. No fair in this country had ever paid a dividend to a shareholder since its inception. Mr. Robertson submitted they should be included in Section 11 of the proposed amendment bill, which waives the free provisions of the act in favor of churches and benevolent and charitable organizations.

AUTHORS' ASSOCIATION

Howard Angus Kennedy, national secretary of the Canadian Authors' Association, informed the committee his association comprised 850 members in twelve branches throughout Canada. In addition to a complete French section, it was formed ten years ago for the purpose of securing the best copyright act possible for Canadian authors. For fifty years he had been engaged as a writer on Canadian subjects, but he was also a farmer, with property near Vancouver, Alberta.

"We are chiefly concerned in getting our country thoroughly into the Berne

DALTON MET REGISTRATION COMMITTEE

Two Hundred and Fifty Delegates Expected For Canadian Manufacturers' Convention

Hon. Elihu J. Davis, Noted Eastern Manufacturer, Will Be Here

Hugh Dalton, secretary of the B.C. division of the Canadian Manufacturers' Association; R. V. Robinson, assistant secretary and J. B. Sutherland of the Vancouver staff, arrived in the city by the night boat and this morning conferred at the Empress Hotel with the registration committee for the annual convention of the Dominion body, composed of James Parfitt (chairman), A. S. Stevens and Dan Campbell. T. J. Goodlake, secretary of the local branch of the Canadian Manufacturers, also attended the meeting.

The registration committee is getting things in shape for the registration of the delegates immediately they arrive. Mr. Dalton estimated that 250 delegates to the convention would be in the city from all sections of Canada. The convention opens on June 1.

It was announced to-day that Hon. Elihu J. Davis, father of Elmer Davis, president of the Canadian Manufacturers' Association, would be in Victoria for the coming convention. Mr. Davis is well-known together at the convention table, Elmer Davis as president, being in charge of the proceedings.

Mr. Davis Sr. is president of the Davis Leather Company Ltd., of Newmarket, and president of A. Davis and Son Ltd., of Kingston, Ont.

Mr. Dalton is vice-president and managing director of the company's Kingston interests.

Other prominent easterners coming for the convention include W. C. Coulter, head of the Coulter Copper and Brass Co. Ltd. of Toronto, second vice-president of the Association; W. S. Morgan, K.C. of Toronto, head of the firm of Fibre Boxes Ltd., chairman of the legislation committee and a member of the executive council; and W. R. Drynan, head of the Canadian Canners Ltd. of Hamilton, Ont., who is chairman of the commercial intelligence committee, one of the most important sections of the Canadian Manufacturers' Association.

W. H. M. Miner, vice-president of the Association, and J. E. Walsh, general manager, will attend the convention, which will be in session June 1, 2 and 3.

MOVE AGAINST SOUTH CHINA

Canadian Press

Shanghai, May 20.—Private reports from Nanking say President Chiang Kai-shek is making preparations for possible eventualities in the south China situation, and planning a push expedition against the south with an army of 250,000 men, including picked German-trained divisions.

It is reported Cantonese and Kwangsi armies approximating 100,000 are marshalling their forces and preparing a march toward Kiang by way of the Red River and toward Hunan along the North River.

One result of this situation has been the withdrawal of government forces engaged in rounding up Communists in south Kiang. Fresh outbreaks of red activities are expected.

Meanwhile vigorous efforts are being made by civilian leaders at Nanking to obtain a peaceful settlement with Canton.

Owing to the reported gravity of the situation, the Nationalist Government is expected to suspend its broadcasts to a censorship on all domestic and foreign press code telegrams.

VATICAN DOES NOT RECOGNIZE THE NEW REPUBLIC OF SPAIN

CARDINAL SEGURA
whose report on affairs in Spain, is now before the Pope and his Secretary of State.

Vatican City, May 20.—To clarify what has been described as a confused situation, a semi-official statement from the Vatican to-day said the Spanish Republic had not been recognized by the Holy See.

It was explained recognition could not be given because the king had not formally abdicated, but merely retired from the country to await developments, and because the Republican Government was provisional.

Reports of Cardinal Segura, Primate of Spain, who crossed into France, and two bishops expelled by the Republic Government of Spain are expected to influence whatever policy the Vatican adopts toward the Spanish situation.

Pattullo Attacks Government Record At Port Alberni

Opposition Leader Outlines Facts of Highway Franchise; Tolmie Government Record Characterized by Speaker as One of "Much Cry and No Performance"; L. A. Hanna, M.P.P., Reviews Legislation

Special to The Times

Port Alberni, May 20.—Before an audience that taxed the Port Alberni Theatre to its capacity, even the loges stairways serving as seats, Hon. T. D. Pattullo on Tuesday evening attacked the record of the Tolmie Government and reviewed political history. The high light of the address, however, came in answer to an interruption from a member of the audience, and was on the subject of the newly granted exclusive franchise to the Vancouver Island Coach Lines.

Mr. Pattullo had been assailing the government's "ballyhoo" policy of talking about a projected Alaska highway instead of doing much-needed work on the roads of Vancouver Island, when a voice from the audience called out "who owns the roads?" followed by "the C.P.R." and "let the C.P.R. pay for them." Mr. Pattullo stated he was glad the subject had been brought up, and proceeded to outline the whole facts in connection with the franchise, which were substantially that after statements that no such intentions were harbored by the then Ministry of Public Works, the government had granted an exclusive franchise for use of the roads to a private company, a government supporter, and controlled by the C.P.R. for a period of five years, renewable for another five years. He stated that the C.P.R. had taken off its afternoon train and was transporting mails by stage, thus using the public roads for the railroad's benefit.

MOVE AGAINST SOUTH CHINA

Canadian Press

Shanghai, May 20.—Private reports from Nanking say President Chiang Kai-shek is making preparations for possible eventualities in the south China situation, and planning a push expedition against the south with an army of 250,000 men, including picked German-trained divisions.

It is reported Cantonese and Kwangsi armies approximating 100,000 are marshalling their forces and preparing a march toward Kiang by way of the Red River and toward Hunan along the North River.

One result of this situation has been the withdrawal of government forces engaged in rounding up Communists in south Kiang. Fresh outbreaks of red activities are expected.

Owing to the reported gravity of the situation, the Nationalist Government is expected to suspend its broadcasts to a censorship on all domestic and foreign press code telegrams.

NEW INTERESTS TO TAKE OVER AIRWAYS HERE

Alaska-Washington to Sell Out B.C. Holdings to Canadian Company

Richard Gosse Heads New Firm; R. P. Butchart One of Directors

A Canadian company backed entirely by Canadian capital and Canadian business men, is being incorporated to take over the British Columbia interests of the Alaska-Washington Airways, it is announced. It will be headed by Richard J. Gosse of Vancouver, who will assume duties of president and managing director.

Mr. Gosse states that the present daily service between Vancouver, Victoria and Seattle will be maintained in the immediate future. It is hoped to extend service to other points.

While the Canadian company will have an entirely Canadian personnel, an affiliation interest will be maintained with the Alaska-Washington Airways for transfer of passengers and mail in United States territory.

U.S. SQUADRONS OF PLANES FLY

Chicago, May 20.—The first fleet of United States army planes converging on Chicago from Dayton, Ohio, flew over the Chicago lake front shortly after noon to-day headed northward. The fleet consisted of about fifty ships in the formation.

RALPH BARTON ENDS HIS LIFE

New York, May 20.—Ralph Barton, widely known illustrator, committed suicide to-day in his East Fifty-seventh Street home here.

When a maid reported for work this morning at Barton's apartment, she found the body of her employer with a wound in the right temple and a revolver in the right hand. Police pronounced it suicide.

MAN ACCUSED OF KILLING THREE LIES NEAR DEATH

Edmonton, May 20.—Alleged slayer of his mother, brother and niece at Edward near Smoky Lake, on Tuesday, Joseph Michalavich, thirty-three, to-day was fighting for his life in a hospital here. Medical examination showed the shot alleged to have been fired by himself after the three relatives had been slain fractured his upper and lower jaws. The sight of his left eye is gone.

Edward D. Adams, New York, Dies

Canadian Press

New York, May 20.—Edward Dean Adams, one of the outstanding engineers, industrial leaders and bankers, died to-day of old age at his Fifth Avenue home. He was seventy-five.

Mayor Presents City Park Views To Government

Armed with the resolution passed by the City Council on Monday night, Mayor Ansonby this morning informed the Attorney-General in regard to "donor" land park. "I laid the city's case before the government officials," he said.

WILL TRY HOP OVER ATLANTIC WITHIN WEEK

RUTH NICHOLS
Jersey City, N.J., May 20.—Ruth Nichols plans to take off on her solo flight across the Atlantic within a week, according to a statement to-day by Colonel Clarence D. Chamberlin, her aeronautical adviser.

CONFERENCE ON INDIA IS SET TO START SEPT. 1

Simla, India, May 20.—An official announcement to-day said the Second India Round-Table Conference would be opened in London September 1.

ELECTIONS MAY DELAY EMPIRE CONFERENCE

August Too Early For Economic Delegates of New Zealand and Australia

Ottawa, May 20.—The possibility of some delay in the holding of the Imperial Economic Conference in Ottawa was suggested in the Commons this afternoon by Premier Bennett. In answer to a question asked by Hon. Ernest Lapointe, former Liberal Minister of Justice, Mr. Bennett said it had been the intention, if possible, to hold the conference some time in August.

FEDERAL CONVERSION LOAN HAS PASSED \$250,000,000 MARK

Montreal, May 20.—Sir Charles Gordon, chairman of the 1931 Conversion Loan Committee, announced here to-day that subscriptions to the Dominion Government's conversion loan had passed the \$250,000,000 mark.

PENALTIES FOR BANKS TAKING TOO HIGH INTEREST PROPOSED

Ottawa, May 20.—Heavy penalties for banks which charge more than seven per cent interest are called for by a bill which will be introduced in the Commons by H. E. Spencer, T.F.A., Battle River. It is an amendment to the Bank Act and provides a penalty for violation of the clause which now prohibits banks from charging more than seven per cent. Notice of the bill was placed on the order paper to-day.

Banks which violate the interest clause, according to the bill, would be liable to a fine not exceeding \$5,000, and any director, manager or officer of a bank who charged more than the set rate would be liable to a fine not exceeding \$1,000 or to imprisonment not exceeding two years.

The provision in the act as it stands has been quoted by the banks, Mr. Spencer claims, and as there is no penalty there is no way of calling them to account. In Western Canada particularly, he says, interest charges of eight and nine and in some cases ten per cent are common. By the imposition of a penalty in violation of the law, it is possible to keep a strict observance of the legal rate of interest.

Canadian Plains Dwellers and People From U.S. Side of Boundary Join in New Gold Search in Fife Lake and Coronach Districts of Saskatchewan

Canadian Press

Regina, May 20.—The staking of gold claims in the Fife Lake district continued at a fast rate to-day, according to reports received from there. A government registry office has been opened at Coronach, where claims are being filed. It is reported many autos are still coming across the border line from Scobey, Montana, and staking is now taking place east of Coronach. A regular camp site was established at Fife Lake when the first rush started, there being many women in the rush.

POLAND WANTS TRADE TREATY WITH CANADA

London, May 20.—Poland is preparing to open negotiations for the conclusion of a most-favored-nation commercial treaty with Canada, it was learned to-day.

ERNEST KEMP KILLED BY FALL AT ALBERT HEAD

Employee of Pioneer Sand and Gravel Company Slips From Wharf

Ernest Kemp, Albert Head Road, was instantly killed at 10 o'clock this morning when he fell from the wharf of the Pioneer Sand and Gravel Company at Albert Head. His neck was broken when he struck one of the cross-pieces of the wharf.

The late Mr. Kemp had been employed by the gravel company for six years and was one of a gang of men engaged on repairing the wharf under the direction of Cecil Blogg, foreman. The remainder of the working party were under the wharf, Kemp being on the upper stringer.

The first intimation any of the workmen had of the accident was the discovery of the body on the gravel beach under the wharf.

It is believed by Provincial Police that the only relative is his mother. The body was removed to McCall's Funeral Home. Funeral arrangements will be announced later.

OLD-TIMER DIES IN VANCOUVER

Late Robert Eccles Lived in Victoria 1894 to 1928; Was Well-Known Merchant

Another one of Victoria's old-timers passed away this morning at the home of his daughter, Mrs. Geo. Hadratt, Vancouver, in the person of Robert Eccles. Mr. Eccles was born January 2, 1845, at Chorley, Lancashire, Eng. As a young man he went to California with his wife, and resided there until 1881 when he moved to Victoria with his family, and for twenty years was a well-known merchant, having a provision store on Douglas Street. Three years ago he moved to Vancouver and resided with his daughter.

FIRE SWEEPS COAST TOWN IN NEWFOUNDLAND

Five Business Buildings and
Nine Homes at Carbonear
Destroyed in Outbreak

Citizens Join in Fight of Four
and Half Hours; Fire There
Three Years Ago

Carbonear, Nfld., May 20.—For the
second time in three years this
town of 6,000 persons on Concep-
tion Bay to-day was stricken by
fire. Flames broke out in the
lumber yard of Saunders, McWell
and Company at 12.30 a.m. and be-
fore the fire had been brought un-
der control at 5 a.m. nine houses
and five business premises were in
ruins.

No complete estimate of the damage
or statement of the amount of insur-
ance carried was available this fore-
noon.
Citizens of Carbonear, Harbor Grace
and nearby settlements fought con-
tinuously for four and a half hours
before the fire was checked. Fire ap-
paratus from Harbor Grace and a
pumper from St. John's were sent to
the scene, but the equipment broke
down at Harbor Grace and failed to be
of service.

CANADIAN NATIONAL

CANADIAN PACIFIC

NATIONALIZING OF C.P.R. DEBATE TOPIC FOR M.P.'S

Ottawa, May 20.—Notice of a
motion asking the Commons to de-
clare that "the government should
take into consideration the advan-
tages of nationalizing the Cana-
dian Pacific Railway," has been
placed on the order paper of the
House by Robert Gardiner, Acadia,
U.F.A. leader. The main object of
the proposal, Mr. Gardiner said to-
day, was to avoid waste and dupli-
cation in connection with the two
great Canadian systems.

EXPLORER IS FOUND DEAD IN GREENLAND

Body of Alfred Gegener, Ger-
man, Lost Last November,
Discovered By Eskimos

Canadian Press
Berlin, May 20.—Reports to the
Wolf Bureau to-day said a relief
expedition in Greenland had found
the body of Professor Alfred Weg-
ener, German explorer, ninety-three
miles from his camp at Esmilte.
Eskimos had found it before the
expedition arrived and wrapped it in
furs, the report said.

Professor Alfred Wegener headed a
German expedition into Greenland last
year and had not been heard from
since November, when he started with
one Eskimo and one sled from his base
camp for the west coast.

Last week the relief expedition found
the sled and the explorer's skis. It was
then hope for his safety was definitely
abandoned.

Vancouver Thug Returns Prized Cigarette Case

Canadian Press
Vancouver, May 20.—The burglar
who looted the home of Judge J. N.
Ellis of the Vancouver county court on
May 17, had some consideration for his
victim. He returned one of the
judge's most cherished possessions, a
gold engraved cigarette case, which
had been presented to him by the
other barbers when he was elevated
to the bench.

A mail carrier found the case,
wrapped in paper, in a letter box.
The inscription on it made identification
immediately possible.

Brig-Gen. Dunlop was trapped yester-
day when he attempted to rescue
the woman, caught by a fall of rock
in the cave.

Brig-Gen. Dunlop only a few weeks
ago was transferred to Tour to in-
spect his study of the French language.

C.P.R. BRANCH LINE DISCUSSED AT OTTAWA

Ottawa, May 20.—When proposed
legislation affecting the Canadian Pa-
cific Railway came before the railway
committee of the Commons this fore-
noon, a bill which would extend the
time in which certain western Cana-
dian branch lines could be commenced
was held up by protracted argument
on another section of the same bill.

The clause which brought the
lengthy discussion had to do with con-
struction of a short line from the Place
Viger terminal in Montreal to L'Espe-
rance on the Quebec-Montreal route.
It was finally passed, but so much of
the committee's time had been taken
up with the argument that action on
the western branch line section of the
measure had to be put over until a
later sitting.

Vancouver Boy Accidentally Shot Recovering

Vancouver, May 20.—Condition of
Claude Morris, fourteen-year-old son of
Reginald Morris, tobaccoist, who was
accidentally shot in the arm and back
by John Richard Karl, fifteen, son of
W. Karl, in the backroom of the
Point Grey Junior High School yester-
day, was improving to-day in the
Vancouver General Hospital.

John Frodo, who was seriously
injured in an automobile accident at
the corner of Granville Street and
Fourth Avenue early on Saturday
morning, underwent an operation on
his legs this morning and is resting
easily.

VOTERS' GROUPS CHALLENGED BY SAANICH REEVE

(Continued from Page 1)

give every support to any practicable
scheme which the ratepayers' associa-
tion unite to present to the council
and the taxpayers, the reeve said.

At recent ward meetings in Saanich
many speakers have appealed for sup-
port for laying of sewers in the urban
wards, extension of waterworks north-
ward from Royal Oak and the develop-
ment of irrigation works using water
stored at Elk Lake. The latter scheme
has been strongly advocated by John
Dean, as one of the surest methods of
developing intensive farming of small
holdings in Saanich.

In this connection there have been
a number of addresses on the possibi-
lity of converting green vegetable
throughout the year on a large scale,
by utilization of the quick freezing
facilities installed at the Victoria Cold
Storage warehouse at Ogden Point.

Scottish Soccer Team Is Defeated By Italy 3 to 1

Rome, May 20.—Italy's undefeated
national soccer team to-day defeated
Scotland, 3 to 1.

JOHN FACTOR AWAITS TRIAL IN CHICAGO

"Jake the Barber" Surrenders
to Police and Says Charges
of Swindling Untrue

Canadian Press
Chicago, May 20.—John Factor,
alias "Jake the Barber," sought
for an alleged \$5,000,000 swindle in
Great Britain, surrendered to gov-
ernment authorities here to-day
and was held for arraignment be-
fore a United States commissioner.
The one-time cut-rate barber, ac-
cused of changing his trade to that of
swindler and stock manipulator,
walked into the federal building with
his attorney.

The complaints against him were
signed by Godfrey Haggard, British
consul here, who will seek his extra-
dition to London for trial. The Broad-
street Press Limited is the principal
complainant.

As he awaited arraignment, Factor
dictated a statement asserting the ac-
cusations were "utterly without founda-
tion."

"I have appeared voluntarily because
I know the charges against me have
been made against me are untrue," he
said. "The attitude of the British authori-
ties is that I should be placed in jail
and denied my opportunity to defend
myself against this persecution."

"I am here to meet squarely the
charges against me, but I feel my con-
stitutional right to bail should not be
denied."

Hearing was set for Monday at the
request of the British consul.

Philadelphia, May 20.—Harry Geen,
charged with swindling British invest-
ors out of large sums of money in
connection with which alleged fraud
John Factor surrendered in Chicago,
was held without bail to-day pending
proceedings for his extradition to Eng-
land.

TWO BODIES TAKEN FROM FRENCH CAVE

Paris, May 20.—French army engi-
neers to-day recovered the body of
Brig-Gen. Robert H. Dunlop, of the
United States military corps, who was
buried alive in a Stone Age cave by a
landslide near Tours yesterday.

The body recovered was that of
Denis Briant, a farmer, and rescued
alive Mrs. Briant, whose screams had
been heard from the back of the cave,
where she was found.

Brig-Gen. Dunlop was trapped yester-
day when he attempted to rescue
the woman, caught by a fall of rock
in the cave.

Brig-Gen. Dunlop only a few weeks
ago was transferred to Tour to in-
spect his study of the French language.

Rev. Dr. W. Walsh Dies in London

London, May 20.—Rev. Walter Walsh,
D.D., leader of the Free Religious Move-
ment in London, died to-day following
a short illness. He was seventy-four
years old.

B.C. FREIGHT RATES MOTION IS COMMONS TEST VOTE

(Continued from Page 1)

"That would be a calamity," said Hon.
Ernest Lapointe, Liberal, Quebec East.
"There are many Canadians who think
so," said Mr. Bennett, "and many who
formerly supported my honorable
friend. When they hear him saying
they are glad they have not got the
responsibility, they are glad they do
not have to carry the burden, they are
inclined to believe those men have not
the ability to carry it."

The adjustment of freight rates was
a complicated business, the Premier
said. Parliament was scarcely the
proper place to consider it.

Ottawa, May 20.—The Commons is
hearing something of the railway
freight rates question as it exists in
British Columbia.

Yesterday evening, with less than
four minutes before the 11 o'clock
adjournment mark, Thomas Reid, Lib-
eral, New Westminster, informing the
House he proposed to move an amend-
ment to the motion to pay \$13
brought up the problem of rates on
grain and grain products which has
agitated the Pacific Coast province for
several years. Mr. Reid had not fin-
ished his speech when the House ad-
journed, the subject going over.

POSITION OF POULTRYMEN
It was not his intention to obstruct
the business of Parliament, Mr. Reid
said, but something should be done to
reduce the discriminatory rates on
grain and its products. "The poultry-
men of British Columbia had been in
dire straits in the last few months,
and he hoped the government would
take action to remedy this. The dis-
crimination against the poultry-
men of British Columbia was a serious
matter. The province had been treated
as an orphan since joining Confederation."

One of the inducements held out to
the province to join Confederation was
construction of a railway that would
connect the Pacific seaboard with the
rest of Canada. In the building of
the railway British Columbia was prac-
tically the only province, Mr. Reid
claimed, which has contributed land
grants. In the railway Act governing
the operations of the transcontinental
system, discrimination in freight rates
was definitely made against British
Columbia when it was told higher
rates would be exacted from it than
from other parts of the country. It was
doubtful if it would have joined the
union, Mr. Reid said.

The Canadian Pacific Railway has
not adhered to the route surveyed by
the Dominion Government engineers
and provided for under the terms of
the contract for the building of the
line, he said. Had the company done
so there would have been no mountain
grades. That route was now the Cana-
dian National Railway line between
Vancouver and Edmonton. "It was
1,800 feet lower than the C.P.R. grade.
But if the C.P.R. blundered and the
Dominion Government acquiesced in
the blunder that was no reason, con-
tended Mr. Reid, why British Columbia
should be discriminated against."
C.P.R. GOT \$125,000,000
Canada had given enormous sub-
sidies to the C.P.R., he went on. Mem-
bers, he asserted, said, "Look what the
C.P.R. has done for Canada." But after

MRS. NIRDLINGER IS ACQUITTED BY JURY AT NICE

Nice, France, May 20.—Charlotte
Nash Nixon-Nirdlinger was acquitted
to-day of a charge of manslaughter in
the shooting of her husband, Fred G.
Nixon-Nirdlinger, Philadelphia, theatri-
cal manager, in their villa here last
March.

The former St. Louis beauty queen
was a plea of self-defence.
It was a brief but dramatic trial
from the time it started this morn-
ing until the jury returned with its
verdict.

The stifling court room was packed
and when the proceedings were re-
sumed after the luncheon recess 1,000
men and women, many of them United
States citizens, stormed the court room.
Police reserves required twenty min-
utes to clear the corridors.

The jury deliberated only ten min-
utes.

NO RESTRICTED WHEAT ACREAGE FOR RUSSIANS

At London Conference Soviet
Approves World Marketing
Board Proposal

Canadian Press
London, May 20.—Soviet Rus-
sia's delegation to the World
Wheat Conference here to-day de-
clared itself wholeheartedly in
favor of the Polish and Australian
plans for a world wheat cartel, but
opposed to restriction of world
wheat acreage as proposed by
Amos E. McKelvie, head of the
United States contingent.

Immediately after the Russian an-
nouncement, Mr. McKelvie told the
conference he stood firmly against en-
tering any international pool.

The conference was facing its first
major分歧. The Russian spokes-
man, outlined the situation much as
Russia stated its case at the recent
grain conference in Rome.

PREPARED TO NEGOTIATE
In favoring the Australian and Pol-
ish plans, it is believed Russia is pre-
pared to negotiate on the basis of
forming a world exporting agency
along the lines advocated by Australia
and Poland.

In an address yesterday, Mr. Mc-
Kelvie said any plan to remedy the
wheat situation necessarily would in-
volve reductions of acreage.

reviewing the subsidies and grants, one
might well say, "Look what Canada has
done for the C.P.R." All told the
C.P.R. had received \$10,000,000 from
the dominion, said Mr. Reid.

Freight rate discrimination had al-
ways been resented in British Colum-
bia, he said. Failure to remove it had
been largely responsible for the con-
sumption of the agreement to build
what was now the Canadian National
Railway. It had been the object of Sir
Richard McBride, then Premier of the
Pacific Coast province, to aid construc-
tion with a view to securing lower
rates. British Columbia was willing to
spend \$40,000,000 on a competing road
to achieve that end. But in 1914 the
C.P.R. became government property
and with that there was taken out of
British Columbia's hands the power to
determine rates.

EAST GETS LOWER RATES
Eastern Canada received lower dis-
count rates on grain from the prairie
than British Columbia, said Mr. Reid.
Wheat was hauled for domestic use
from Saskatchewan to the head of the
Great Lakes for 19 cents a bushel,
while the rate to Vancouver was 41½
cents and Vancouver was only half as
far.

In its Pacific Coast rates, he went
on, the Canadian Pacific was charging
for 130 miles of haul that did not
exist. It had a further advantage over
the Canadian National in that the
Canadian National terminus was
seventeen miles from Vancouver and
the Canadian National had to pay \$13
extra for every car of grain moved
into the city of Vancouver.

MUST BE A CHANGE
"British Columbia has been bled
white and can not much longer con-
tinue," said Mr. Reid.

Poultry farmers were being forced
out of business because of the high
cost of grain, due to freight rates, he
said. Large sums of money had been
spent abroad developing markets for
wheat while the markets at home were
being stifled.

SEVEN DEATHS IN WASHINGTON INVESTIGATED

Washington, May 20.—While extra duty policemen patrolled the streets yesterday evening to combat the capital's crime outburst, in which seven men had died in three days, one officer was arrested and held for investigation as a result of the last fatality.

Wallace J. Middleton, policeman, was detained and questioned about the fatal shooting of John Cunningham, reputed to be a police informer. Captain Edward J. Kelly of the homicide squad had said he believed Cunningham, who died Monday evening, clearly had been "put on the spot."

Officials declined to reveal information on which they were holding Middleton. They said Mrs. Cunningham, the widow, also was being questioned.

EARTH SHOCKS AT LISBON

Lisbon, May 20.—Portugal's capital city was rocked by two sharp earth shocks early to-day, one of ten seconds' duration. No casualties were reported and the damage was slight.

The first occurred at 3:20 a.m. It created panic among the populace and they deserted their beds for streets and cellars. The longer one was felt a few minutes later, shaking the city severely.

Water mains were broken, building walls were cracked, a few chimneys were felled and household furnishings were knocked about.

People in the provinces also were badly frightened.

In Lisbon's night clubs patrons stampeded to the street without paying their checks.

At Oporto and Braga hundreds knelt in the streets, praying. Residents of suburban towns spent the night in the fields, and the same situation was reported from a dozen other points.

REGISTERED IN SWITZERLAND
Zurich, Switzerland, May 20.—Heavy earth shocks were registered at 3:25 a.m. to-day at the observatories at Neuchâtel and Zurich. The former calculated the epicentre at 2,000 kilometres away, probably in Morocco, while the latter placed it in the western portion of the Azores.

FEES QUESTION AS COPYRIGHT ACT DEBATED

Commons Committee Hears
Motion Picture Interests
and Composer

Canadian Press

Ottawa, May 20.—Fees and costs of proposed amendments to the Copyright Act were again threshed out yesterday by the special Commons committee under the chairmanship of Hon. C. H. Cahan, Secretary of State. Highly contentious, the measure continued to disclose this character when evidence was given by Ralph Hawkes, director of the Performing Right Society of Great Britain and Canada; Lieut. Officer, song writer; Colonel J. A. Cooper, president of the Motion Picture Producers' Association of Canada; and Gordon V. Thompson of the Authors' and Composers' Association of Canada.

Most of the difficulty hinged on the section of the act which requires the assignees of copyrighted works, of pure works with the copyright office, together with the fees charged for the right of performance. A sub-section of this clause also vests in the Governor-in-Council the right to prescribe how much those fees should be.

MILLIONS-ON LISTS

For the most part objection was taken to these provisions. The Performing Right Society could not file lists of all the works it possessed since these ran into the millions, nor could it pre-determine what fees it should charge before it was assured whether the work was going to be a success or not, it was stated.

The motion picture industry was interested in the amendments and was puzzled whether the actual process of producing a picture could be construed within the meaning of the act as a "performance." This fine distinction was taken into consideration by the committee.

MAY BE INVESTIGATED

Possibility of an alleged motion picture combine being investigated by a parliamentary committee this session was indicated when, commenting on a question put by a committee member to Colonel Cooper, Mr. Cahan said that "before this House is finished you may be on a committee investigating Mr. Cooper's company."

Asked outside committee what process would be adopted in order that the report respecting the alleged motion picture combine might be brought before a committee of the House, the Secretary of State said his remark was intended to indicate the irrelevancy of a question asked by E. R. E. Chevrier, Liberal, Ottawa.

Mr. Chevrier inquired whether Colonel Cooper would be willing that the Governor-in-Council prescribe the fees to be charged by the Motion Picture Producers' Association for the release of pictures to exhibitors.

Mr. Cahan thought the question had no bearing on the matter under examination and any reply by Colonel Cooper might be prejudicial in the event of action being taken in connection with the investigation which had just been completed into the motion picture industry in Canada.

Hoover May Visit Ottawa in July

Ottawa, May 20.—According to The Ottawa Journal, should plans for the construction of the United States Legation Building, opposite the Parliament Buildings proceed according to schedule, in all probability President Herbert Hoover will be the guest of honor at the middle of July to lay the corner stone of the structure, designed to cost in the region of half a million dollars.

SENATE TALKS OF TRADE PROSPECTS

Liberal Leader Says Canada
Should Have Minister in
South America

Canadian Press

Ottawa, May 20.—Canada should accord one minister to serve the three republics of Brazil, Argentina, and Chile, that minister to have commercial attaches at the capital of each of those countries, declared Senator Raoul Dandurand, Liberal leader in the Senate, during a discussion of the Trade Mission to South America a few weeks ago.

That minister, the Senator said, could spend four months of the year in each capital, according to his season to the climatic conditions. Senator Dandurand also foresaw that in a few years, when China had become more stabilized, Canada would consider it to its advantage to have a minister at the capital of that far eastern republic.

South America and the Orient were the two great potential markets of Canada. This country should cultivate them.

Senator C. F. Baughen and Senator H. H. Horey, who were members of the trade mission, said Brazil and Argentina both were willing to negotiate trade treaties with Canada. Falling this, trade conferences might accomplish much. Both senators believed the status of Canadian trade commissioners in South America should be revised and possibly could be discussed at the next Imperial Conference.

St. Hon. George F. Grahame drew attention to the difficulty of negotiating preferential treaties with South American countries. The United States, if not given the same preference, would automatically increase its tariffs against the South American countries by twenty-five per cent.

French Legislators Are Put on Trial

Paris, May 20.—Senator Raoul Peret, former Minister of Justice, went on trial yesterday before the senate, sitting as a high court, on charges of accepting a bribe from Albert Oustric, banker, while serving as a member of the government.

At the same time three other members of Parliament involved in charges growing out of the Oustric Bank failure are on trial on charges of complicity. They are Rene Besnard, Gaston Vidal and Albert Favre.

The method of voting used by the Greeks for some 2,500 years consisted of having an urn to represent each candidate. The voter tossed in a white pebble if he wished to vote for a candidate and a black one if he wished to vote against him.

House Considers Auditors' Rights

Canadian Press

Ottawa, May 20.—Auditors of private companies would be allowed to be directors also, under the provisions of a bill considered in the Commons yesterday evening during private members' hour and referred to the banking and commerce committee on second reading.

Under an amendment made last session to the Companies Act, neither the auditor of a company nor any partner or associate of an auditing firm is allowed to be a director of the same company.

The new bill, sponsored by J. T. Hackett, Conservative, Stanstead, Que., was supported by G. B. Nicholson, Conservative, Algoma East, Ont. Criticism of the bill came from both sides of the House. Both Hon. H. H. Stevens, Minister of Trade and Commerce, and Hon. Fernand Dumby, former Liberal Secretary of State, were opposed to any relaxation of the restriction.

The State Museum at Raleigh, N.C., contains the largest rattlesnake mounted, in any collection in the world. It measures 6 feet 11 inches in length, and 11 inches in girth. It weighs 7 pounds and 11 ounces and has 12 "rattles" on its tail.

Divorce cases in English law courts total up to just under 5,000 a year. In Chicago the record annual crop of such cases is about 9,500.

OUR TRAGEDY OF ERRORS

WHETHER THE DUTY ON NEWS cameras and sound recording apparatus will follow the brief but chequered course of the duties on plate glass and potatoes, or not, the early future will make clear. The duty on plate glass, it may be remembered, was imposed in the interest of a prospective industry, which remained a prospect, with several consequences so startling that it was immediately removed. In the first place, it ran the price of plate glass to the consumer up to a prohibitive figure. In the second place, it antagonized the Belgians, from whom our plate glass is imported, so intensely that they retaliated with a duty on Canadian wheat. As Canada sells to Belgium wheat many times the value of the plate glass Belgium sells to Canada, the precipitation with which that duty was withdrawn can be easily understood.

Recently somebody wanted a duty on potatoes and, of course, an order-in-council imposing it was passed at once. Then it was discovered that the growers of the potatoes of the southern states, against whom the duty was aimed, were heavy buyers of seed potatoes from the Maritime Provinces, and that if they could not ship their potatoes to Canada they could not buy their seed from Canada. Result: the Canadian seed growers sent up a mighty howl over the loss of a profitable seed market, and the duty on potatoes followed the abortive duty on plate glass into unhonored oblivion.

Up to the imposition of the duty on picture and sound equipment the two duties we mention probably held the record as perfect examples of how to bite off your nose to spite your face. But, in our judgment, both of these acts in Canada's tariff history must take second place to the latest exhibition of official stupidity and ignorance. Among its provisions this regulation imposes a prohibitive duty against apparatus brought into Canada by foreign motion picture companies and publicity organizations for the purpose of filming pictures of Canadian scenery, news happenings and plays for reproduction throughout the world. If a great picture producing company, of Hollywood wants to film a play in Canada for exhibition in thousands of playhouses patronized by countless millions of people, it must pay duty on its equipment every time it crosses the boundary line. As this apparatus is enormously costly the duty would be very high. A similar prohibition is enforced against photographers representing publicity companies of various kinds who for years have come to Canada to photograph topical events of unusual interest, not a few of which have occurred on this coast, and from which this country has derived advertising of incalculable value, which, moreover, cost us nothing.

The official reason assigned for this latest tariff phenomenon is as fantastic as the duty itself. In general terms, according to the Prime Minister, the order-in-council was passed to protect the Canadian film industry. Later, the Minister of Trade and Commerce explained that there was "a motion picture" apparatus establishment in operation in Canada which would benefit from the duty. Does the Minister seriously believe that the big foreign motion picture companies and publicity organizations will abandon their own extensive equipment when they cross the border, to buy new machines from "a Canadian factory" for the short time they operate in Canada, only to discard them when they return to their own country? Does he not realize that the various apparatus used by these establishments is designed to meet their own peculiar requirements and for the most part is especially constructed for them?

What will be the consequences to Canada of this incredibly foolish proceeding? Mr. King Vidor, a prominent California producer of motion picture plays, says the organizations in the United States will not send companies to this country to take pictures for their big productions if they are going to be charged duty on their equipment. Instead, they will operate in Washington, Montana, Minnesota, Michigan and other border states where scenic and other conditions are similar to those of the Canadian provinces. Likewise we shall lose the valuable publicity which has been given to us freely by camera representatives often sent to Canada to make pictures for news agencies and publishing houses which will use no other films for pictures than those taken by their own operators.

In a few days Mr. Bennett will deliver his budget speech. We wonder if his address will contain the usual enthusiastic reference to the value of the tourist trade to this Dominion, which the Bureau of Statistics periodically tells us is worth three hundred millions of dollars a year. It would be the height of irony, indeed, if the Prime Minister used these figures in his estimate of our trade balance in the face of the action of his government in cutting off one of the chief agencies in the production of that revenue—the publicity Canada has been getting throughout the world in recent years.

However sane the government at Ottawa may be in other directions, there can be no question that it has run completely amok on the customs tariff. Any industry, large or small, only needs to whisper to the capital for an order-in-council clapping a prohibitive duty on its product and one will be passed without the slightest regard of consequences to the country as a whole. Already twenty countries have adopted retaliatory duties against Canadian products, our trade is dropping at the rate of \$600,000,000 a year and unemployment is increasing as the inevitable sequel. Now, a blow is being aimed at our tourist travel by a regulation which, as far as the aspects we have mentioned are concerned, can not bring a single dollar of business to any Canadian industry. We are being protected to a hole to deep that it will take an entire generation before we shall be able to climb out.

A GOOD APPOINTMENT

BRITISH COLUMBIA'S LUMBERMEN have made no mistake in appointing Mr. Loren L. Brown to be their direct representative in Great Britain. He is adequately fitted for this important position. He is an efficient engineer and one of Canada's leading authorities on timber, its uses and its treatment. What is especially important, however, is that Mr. Brown is well known in engineering and building circles in Great Britain, while his lectures to many public bodies when he filled a similar position under the Oliver government from 1923 to 1925 did much to interest lumber importers in the British Isles in the forest products of British Columbia. Mr. Brown was responsible for the magnificent display of woods—particularly the complete bungalow—from this province at the British Empire Exhibition at Wembley in 1924 and 1925. His appointment will unquestionably be followed by more orders from Britain for the mills of this coast, and the excellent spade work carried out by former Agent-General Pauline will not have gone in vain.

THEN AND NOW

ABOUT A YEAR AGO WHEN PARLIA-ment was in session and the King government was in control of the country's business Mr. Bennett had a good deal to say about certain conditions which he charged had been brought about in Canada through the policies of his political opponents. He harped upon the subject so much that the government suggested he let Parliament know what he would do to improve matters if he were in office. To which he replied: "I will prescribe when I am called in."

The Toronto Mail and Empire, a supporter of the present government, seems to have forgotten the remark of the then leader of the opposition, now the Prime Minister. For it is now remonstrating with the members of the present opposition for being critical of the administration; it is demanding political co-operation to meet what it calls a national emergency. Here we see how it feels on the point:

But what we are trying to emphasize is that, instead of indulging in merely partisan speeches and idle personalities, the chief men in the opposition party, at a time of crisis like the present, should earnestly devote their attention to the crucial problems of the day and that, whenever possible, they should support the government's effort to solve these problems instead of merely manoeuvring for political advantage. As Mr. Macdougall concluded, Canada has been caught in the backwash of a world-wide depression and, instead of giving way to pessimism or partisanship, the people's representatives in Parliament should co-operate in a joint patriotic effort to restore the nation's prosperity.

A year ago The Mail and Empire had no use for the political co-operation which it now virtually demands Mr. King give Mr. Bennett. Its sole specific for solving the problem at that time was a change of government so that Mr. Bennett could prescribe. It is now nearly ten months since the new doctor was called in. It is true he has prescribed; but with what effect?

ACCIDENTS AND THE HUMAN FACTOR

OF THE 32,500 TRAFFIC ACCIDENTS in the United States which resulted in death last year, eighty-nine per cent of the vehicles inspected were in good condition, and of some 700 automobile accidents in which injuries resulted, ninety-five per cent of the machines had nothing wrong with them. These figures form the authoritative conclusion of a leading traffic expert, and they would seem to point to the fundamental cause of most street and highway mishaps—the human factor.

Despite the best brakes in the world, this expert contends, it is the human factor in nine cases out of ten that causes two automobiles to smash into each other—that vague and uncontrollable element in us which is responsible for most of the trouble. Difficult as it may be to put our finger directly on this unknown quantity, when it is comparatively simple to place the blame for an accident on the more fundamental parts of an automobile, perhaps it may not be so difficult to analyze and see just what really does contribute to the human factor.

We are living in an age of speed which naturally enough is marked by lack of consideration for others. We are apt to become impatient with people who prefer to drive their cars a little slower than we do. A little thought in time would save a good deal of trouble. Automobile operation requires the use of the head as well as the hands and feet.

WHAT OTHER PAPERS SAY

WAR DEBTS

The plea for a larger and better adjustment of these foreign obligations is not one to our kind hearts but to our hard heads. If we can make more, gain more, by a feasible financial arrangement with our debtors than by extracting from them the uttermost farthing, we should build our own strength if we did not study how to do it. This is really the animating motive in the minds of the international bankers and captains of industry and exporters of American produce and owners of great shipping companies when they urge plans for placing the war debts upon a wholly new basis.

CANADA LOSES FINE TYPE OF CITIZEN

The career of Hon. John S. Martin, till recently Ontario's Minister of Agriculture, whose death was announced the other day, was a most unusual one. He was a musician of exceptional talent and as a young man was believed to have much distinction awaiting him in that field. But while teaching school in a small town he became interested in poultry raising and, devoted himself entirely to it, he achieved an international reputation as a breeder. These activities proved very profitable and in course of time he was induced to enter politics. On the formation of the Ferguson cabinet he took over the department that he held until ill-health compelled his retirement last autumn. The policies that he initiated were productive of excellent results for Ontario agriculture.

When the delegates to the world's poultry congress were in Edmonton a few years ago, Mr. Martin was in the party and will be well remembered by those who met him on that occasion. In Masonic circles he was prominent and served for two terms as the Ontario grand master. With his very real ability he combined much personal charm and all who knew him or had followed his work will greatly regret his untimely death.

A THOUGHT

In his love and in his pity he suffered them—Edwin Arnold.

Loose Ends

The government sees an ancient law working out—The parks administration continues to be brutal—And a cure for such things is discovered.

By H.B.W.

ACCORDING TO ENLIGHTENING FIGURES prepared by the British Columbia government and published in this newspaper, marriages and births in British Columbia have declined rapidly on account of the economic depression. Here indeed is the working out of the good old law of supply and demand on a splendid scale. The demand for people just now is extremely low and the supply extremely high. There are far too many of us at the moment for our own comfort. Now, behold, the supply is declining in the most satisfactory way. It may take a little while to work this magnificent process to its conclusion, but we can afford to wait. In the course of time, at the present rate, and with the aid of the government, it can be proved that marriages and births will decline so much that there will be none at all and then, for once, the law of supply and demand will collapse; for when the last of us dies there will be no supply and the break is there. We would only leave everything to the good old law of supply and demand we should have nothing to worry about.

THE MOST CURIOUS THING ABOUT the present depression, however, is not the evident workings of the law of supply and demand among the marriages and births of the B.C. government. The most curious thing is that the very school of economists and politicians who are shouting the loudest to-day in favor of the law of supply and demand are the very ones who are insisting that trade flows according to fixed principles and can't be cured by artificial respiration, are those who are trying to apply such remedies. It is not too much to say, indeed, that the whole structure of modern business on this continent at least, is erected on the assumption that the law of supply and demand has been permanently repealed. All that has happened lately is the discovery that it is still in force.

THIS CONTINENT HAS BUILT UP its present civilization and standard of living on the charming assumption that half of the world over in Asia and other backward places would remain forever backward, would be happy to buy our goods without selling us any in return. To make sure that this occurred, with all kinds of protections, like tariffs, so that the law of supply and demand might not work. Having done so, we proceeded to reason that the rest of the world would gladly pay us higher prices than existed elsewhere for the mere pleasure of seeing us grow prosperous while they grew poorer. And as a crowning feat of logic, we reasoned that if we could keep the other nations poor, by refusing to buy any of their goods, then they would have more money to buy from us.

NOW THAT THE PROCESS IS WORKING to an inevitable conclusion, now that the law of supply and demand is making itself felt and rendering it very uncomfortable for us, this school of economists which is most against interference with business is busiest interfering with it; and those economic lawyers who are the strongest believers in the law of supply and demand are most active in efforts to invalidate it. As such a state of affairs is the British Columbia government should be most useful, the British Columbia government having found that even the supply of babies is governed by the demand.

IT IS ALWAYS A SOURCE OF ANNOYANCE to me as I drive into town from Saanich every day to see how the unenlightened city parks administration keeps the boulevard trees of Quadra Street continually being cut down by the parks department. I have always contended that this systematic amputation of our boulevard trees all over the city was a crime against nature and a crime against the public as well. The defenders of this practice have invariably replied that they were forced to follow it by the pressure of the parks department, but I have always contended, for example, you can see to-day that no such brutal measures are required. On Linden Avenue the trees almost arch over the road, making such a street as you find in every town in old Ontario. There is an air of maturity and peace about such a street which must have a wholesome effect on the disposition of everyone dwelling there; whereas the butchered little trees of Quadra and other streets are a continual incitement to riot and violence against the whole city government. They make our streets look like the newly-made streets of some mushroom town on the prairies, when, with a great saving of labor and cost to the taxpayer, they could be allowed to become real trees instead of tortured stumps. It is understandable that there should be such boulevard trees all over Shaughnessy Heights, in Vancouver, where they have had no time to grow any larger, but why we should make our streets look new and raw, as if our city had only been laid out last year, is a secret known only to the parks administration.

BY FEEDING VARIOUS CHEMICALS to unfortunate monkeys, a group of learned scientists somewhere or other has discovered that mother love is the superior and superior instinct which we had supposed. It is simply the result of manganese in the diet. Monkeys which were fed manganese looked after their young. Monkeys which got no manganese left their young to starve or killed them outright, and the superior and superior instinct which we had supposed, I bring this to your attention merely that you may appraise good nature and bad nature in your friends on a reasonable basis. Next time you do something rather grand do not flatter yourself that you are wise, then, what men, you have surely eaten manganese in your food. Do not blame your neighbor either if he seems unkind or cruel. Remember the law of supply and demand.

member that the poor fellow is probably starved for manganese. If we could only get manganese to the masses we might reform the world. If we could only get manganese to the parks administration it might stop butchering the trees. If we could only get enough manganese into the city council it might release the little white bear. Nay, if we could stand our governments in a corner somewhere and fill them full of manganese we might persuade them to remove such aggravations as the new income tax. This seems so much more Christian than the method more often advocated, namely of filling them full of lead.

DENTAL SOCIETY NAMES OFFICERS

Dr. A. E. Webster was elected president of the Victoria Dental Society at its meeting yesterday evening in the study of the Victoria Dental Society. Other officers were: Dr. Allan Fraser, president-elect; Dr. William Fraser, secretary; Dr. E. S. Fowler, treasurer; Dr. H. Henderson, Dr. W. J. Gibson and Dr. E. W. Hetherington, executive.

Following the business session an interesting exhibit of laboratory models was given by J. G. Boyle, Vancouver. An expression of sympathy was passed by the dentists to the family of the late Dr. G. H. Haynes, who for many years was a valued member of the society.

BORDER CROSSING NOTES ARE PLACED BEFORE COMMONS

Ottawa, May 20.—On the question of border crossings, correspondence between Mr. W. R. W. Brown, Charge d'Affaires of the Canadian Legation at Washington, and Henry L. Stimson, Secretary of State of the United States, was tabled by Premier R. B. Bennett in the Commons yesterday evening. Mr. Brown took up the committee situation in a note to Mr. Stimson, December 26, 1929, and Mr. Stimson replied in a formal note May 11, 1931. The United States note set out the instructions issued to immigration officers governing the admission of persons to the United States and the spirit of the understanding arrived at between the two countries in 1927 had been departed from. The instructions were: 1. Commuters who have abandoned their status as such shall be regarded as new immigrants. 2. Commuters who have been out of employment for six months in the United States are presumed to have abandoned their status. 3. Commuters who leave Canada will have to secure entry as new immigrants when they go back to work in the United States. 4. Commuters shall not be refused because they change their employment in the United States prior to the check-up. 5. Where commuters obtained privilege by fraud it shall be withdrawn.

20,000 BANDITS RANGE OVER BIG AREA IN CHINA

Hankow, China, May 20.—Twenty thousand bandits, including several hundred women, are ravaging the border area of Hupeh and Anhwei provinces, devastating towns and country, according to reports. The region, long a battleground for outlaw and government armies, is being depopulated as harassed natives flee to safer zones.

A dispatch from Nanking to the government military commander here said: "The government has determined to suppress the red bandits, giving attention to this peril before attempting to solve the South China insurance."

The bandits are pouring over the country in three hordes, with semi-military organizations styling themselves "red armies." They are armed with cannon, field guns and thousands of rifles. Military headquarters here said the government was making strenuous efforts to curb brigandage, which was reducing people to beggary and causing populations of entire areas to migrate.

LIFE SENTENCE IS GIVEN LOOTER

Madrid, May 20.—Dispatches from Malaga to-day said Antonio Luque Jurado had been sentenced to life imprisonment for attacking and looting a Catholic church property during the recent incendiary riots. He and others were given long sentences for the same offences after conviction by a court martial.

A convent in the village of Tafalla, near Pamplona, was reported to have been set on fire yesterday by a mob. The convent people drove off the mob and put out the blaze before much damage was done.

A NEW LIGHT?

To the Editor:—Has our financial wizard, Hon. R. B. Bennett, seen a new light to lead Conservatives out of the economic wilderness? Bond Conversion Loan seems to be a new light for bondholders but a black nightmare for those of us who do not, and never will, own any bonds. Owners of \$100 bonds, due in 1937, will receive \$94.50 interest in place of \$100. Truly a marvelous relief for bondholders!

Why hand out relief to bondholders and compel workers to produce interest when employed and starve if unemployed or at the best, live on a one financed by the sale of more bonds? Is not such Conservatism tinged with madness?

ONE-TIME CONSERVATIVE.

Veteran Post Office Employee Is Honored After Long Service
 An employee of the Post Office Department in Victoria for the last forty-four years, James S. Smith was yesterday honored when G. H. Gardiner, postmaster, presented him with a purse of gold on behalf of his fellow workers in the department showing the esteem in which he has been held during the many years of his long and faithful service. Besides this tangible gift, Mr. Smith is receiving a six month's vacation from the department, and when his time is up at the end of September he will be superannuated to enjoy his well-earned retirement.

Prior to actually being signed on the department's payroll, Mr. Smith worked as a boy for the postmaster of that time as a messenger. Since then he has served under five postmasters. For the last quarter of a century he has been in the directory department and has been a valued member of the staff.

TRADE STIFLED BY HIGH TARIFFS, CAUTIONED TOLD

\$100 Machine at Chicago Is Boosted to \$500 in Australia By Imposts
 Norman H. Caulfield has returned to his home here from Chicago, where he went to confer with President Alexander Legge of the International Harvester Company, who recently returned to the head of the great corporation after serving for more than a year as head of the U.S. Farm Board, by which the government sought to hold up grain prices.

Mr. Legge told Mr. Caulfield that tariffs were killing business on all sides and intensifying the trade war. As an instance, Mr. Legge told how \$100 worth of farm machinery in Chicago now costs the buyer in Australia \$500 as a result of enormous customs tariffs on top of the normal freight charges. Such conditions killed business for both seller and buyer. Mr. Legge said he feared it would be three or four years before business could dig itself out of the present slough.

Mr. Caulfield conferred with Mr. Legge on the patents and machines produced by the local inventor. He will go out again in July for the harvest operations in Illinois and Mr. Legge is going to Saskatchewan with him for the harvest there.

In Chicago, Mr. Caulfield saw the preparations being made for the World's Fair and the extension of Grant's Park into Lake Michigan to provide additional acreage for the fair. He found industrial conditions bad in the plant that he was running operating only two days a week. Some of them will close down in a couple of weeks because their storage capacity is nearly filled and they are not selling any goods.

BY-ELECTION IN WALES IS WON BY LABOR MAN

Ogmore, Glamorganshire, Wales, May 20.—Edward Williams, Labor candidate, easily retained the Ogmore seat in the Commons for Labor in the by-election yesterday. He was elected by the death of Rt. Hon. Vernon Harcourt, polling 19,555 votes against 5,219 for the only other candidate, J. R. Campbell, a Conservative.

The result of the election raises the Labor representation in the Commons to 278. There are now only three vacancies in the Commons. Mr. Williams, who was elected in 1929, is a four-cornered fight in 1929. The candidates are David Hardie, Labor, and Captain Moss, Conservative.

In Stroud there is a three-cornered fight for the seat made vacant by the resignation of Sir Frank Bagnall, Conservative, elected with a majority of 2,872 in a three-cornered fight in 1929. The candidates are A. W. Stanton, Liberal, and Sir John Maynard, Labor, and Robert Watkins, Conservative.

REBEL LEADER FLEES
 Funchal, Madeira, May 20.—Colonel Pinheiro Castro, investigating the recent Madeira revolt, yesterday reported Capt. Francisco Sardiinha, one of the leaders of the uprising, had fled to England. Colonel Castro will sail for the Azores island next Monday to continue his investigation.

LEAVES SINGLE MEN TO STARVE

Ward Seven Ratepayers Told Relief Programme Too Restricted
Big Meeting at Tillicum School Demands Reversion to Old Water Collection System

Unemployed married men now registered in two urban wards of Saanich number 136, a meeting of the Ward Seven Ratepayers' Association was informed yesterday evening at the Tillicum School. In Ward Two sixty-six married men were workless and in Ward Seven seventy men registered for relief. It was also stated that single men were disregarded entirely in employment distribution and, except for individual cases given personal attention by councillors, could starve before they received official aid.

Ex-Councillor Stanley Eden occupied the chair and at times for difficulty in controlling the audience, which extended far down the corridors. When discussion of the new system of collecting water accounts was introduced, a number of Ward Two residents, led by Councillor Dennis Hoare, announced that their ward association had passed a resolution demanding reversion to collection of water bills by the meter readers.

This resolution was endorsed, with an alternative suggestion that the municipality open an office in the urban district for collection of water bills. The chairman declared the new system of collecting at the municipal hall, which necessitated mailing by a majority of the consumers, had been installed at the urgent insistence of the municipal auditors.

Much criticism was voiced regarding the investment of \$9,000 in mailing machinery, to be used for tax bills, water accounts and other recurrent routine municipal services. It was declared that money otherwise available for unemployment relief had been diverted for the benefit of the well-paid and not over-worked office staff, that seventy-five unemployed could have been given two weeks' work with the money invested in machinery and that road maintenance in the wards would have to be reduced to provide the cost of the office aids.

Councillor Rogers of Ward Seven spoke briefly in explanation of the efforts of the municipality to make the money available for unemployment relief extend to the greatest possible number of families.

FOR SALE—On the Sunny Side of Beautiful Glen Lake Close to the City

One new four-room cottage, open fireplace, walls Gyproc and tinted, sleeping porch, etc. Price very reasonable, terms easy to responsible purchaser. New view just constructed to the property. Also a few choice waterfront lots for sale.

SHORTER HOURS

Toronto, May 20.—Demand that Ontario truck owners immediately consider working their drivers more than ten hours out of the twenty-four was made yesterday evening by Premier George H. Henry, addressing members of the Ontario Motor Truck Owners' Association. Unless the regulations in this respect were complied with, he said, the Department of Highways would use its powers to enforce compliance.

FASHION HINT

"How to make my old short skirts conform to the new length was a problem to me until I hit on this plan. I dropped the hems, and as the part that had been turned under was darker than the rest, I dyed the entire dress, after having bleached the goods, following directions in the Diamond Dyes package."

"I used Diamond Dyes for the red-dyeing of course. I have dyed many things with these wonderful dyes. They have saved me many dollars and have never failed to give perfect results—bright, even colors—fast to wear and washing. Friends think my things are new when I redye or tint them with Diamond Dyes. They do give the most gorgeous colors!"

Mrs. G. C. Lewis, Quebec. (Adv.)

MANY BUSINESS WOMEN COMING

Representatives of clubs in Washington, D.C., and other main-line points have accepted invitations to attend the annual banquet on Saturday evening of the Victoria Business and Professional Women's Club. It was stated at the monthly meeting held in the clubrooms, Langley Street, Monday evening, Mrs. E. G. Maynard, the president, was in the chair.

Mrs. Maynard told the gathering of her recent visit to Port Angeles, where, accompanied by Miss Wigley and Miss Van Becker, she attended the organizational banquet of the Port Angeles Business and Professional Women's Club. Miss Van Becker supplemented the report with some interesting observations. Miss Clay reported of her recent visit to Bellingham, where, in company with several Vancouver representatives, she attended the International Relations banquet staged by the Bellingham club.

NEW MEMBERS

Three new members, Miss Helen Kelly, Miss Agnes Forbes and Mrs. E. E. Reynolds, were accepted into the club. The committee accepted with much regret the resignation of Miss Mary Roberts from the directorate, owing to illness, and Miss Morrison was appointed in her place.

Various reports were presented, including Miss Pagon, on finances; Miss T. Taylor read a letter from the Children's Aid Home appealing for assistance in building the first unit of a permanent camp at Cadboro Bay; Miss E. M. Macrae reported for the house committee; Miss Morrison on the recent successful bridge party; Miss Meta Hodge for the Junior Red Cross; Miss Richardson for the Glee Club; Mrs. Maynard on the guest tea at the Y.W.C.A. The matter of a local club emblem was postponed for another year.

As Miss Wigley will be in the east at the time of the forthcoming Canadian Federation Convention, she was asked to represent the club at the deliberations as second delegate. Miss Clay being the other representative.

Chapter to Hold Flannel Dance At Yacht Club

Plans for their annual flannel dance to be held at the Royal Victoria Yacht Club, Uplands, on June 19, were made at the monthly meeting of the Major John Hadden Chapter, Chapter 1, O.E.D., held in the headquarters, Union Building, on Monday, Mrs. S. P. Moody, the regent, presided. The proceeds will be devoted to the chapter's educational work.

Committees were appointed as follows: Tickets and programme, Misses Zeta Clark and Dorothy Geake; posters, Misses Doris Rines and Wilma Henderson; decorations, Misses Margaret Sherret, Patsy Rines and Eleanor Elmsdale; refreshments, Misses Elaine Gallicher, Ema Henderson, Florence Whittey and Wilma Henderson; music, Marguerite Sehl.

W.B.A. REVIEW HEARS REPORTS

At the meeting of Queen Alexandra Review, No. 1, Women's Benefit Association, held in the K. of C. Hall on Monday evening, with Mrs. McQueen Todd presiding, many old-time members were extended a hearty welcome, while members who attended the convention, recently held in the States, brought greetings back with them, and gave interesting talks on the splendid rallies held in Washington and Oregon.

The annual memorial service will be held June 14. A sale of home cooking will be held June 20 in the basement of David Spencer's. A travelogue will be held in the K. of C. Hall, June 16. At the close of the meeting a social evening was held, with refreshments being served after a splendid programme of games and music.

FOUR HUNDRED PRESENTED AT ROYAL COURT

Queen Wears Pink Chiffon and King in Scarlet Uniform; Prince Absent

Twelve Canadian Women to Be Presented By Mrs. H. Ferguson To-night

London, May 20.—More than 400 women were presented to the King and Queen yesterday evening in the first court of the season as their Majesties sat on their great golden thrones in the ballroom of Buckingham Palace. Great crowds assembled outside the palace to get a glimpse of the debutantes and matrons as they lined up in glittering limousines some hours ahead of time.

Some of the excited debutantes spent their time during the long wait smoking or reading. Others opened the windows of their cars and talked to the onlookers, and one of them was seen knitting. Shortly after 9 o'clock the signal was given and the automobiles moved slowly toward Buckingham Palace, which was in gala dress for the occasion, with flowers everywhere.

QUEEN IN PINK

The King wore a scarlet uniform of colonial-in-chief of the Scots Guards. The Queen's gown was of pink chiffon with pearls and diamonds in her corsage and pearls embroidered in her train. She wore a diamond tiara on her silver hair.

Those who had hoped to be presented to the Prince of Wales were disappointed. He was chief guest at an artists' dinner and so was detained. The second court will be held to-night. Other courts are scheduled for June 9 and June 10.

Lady Poltimore, who belongs to the Lascelles family (the family of Princess Mary's husband) and is a cousin of the Earl of Harwood, presented her daughter, Miss Sheila Bamfylde. Lady Glamis presented her eldest daughter, Miss Cecilia Bows-Lyon, cousin to the Duchess of York.

This evening Mrs. G. H. Howard Ferguson, wife of Canada's High Commissioner, will present twelve Canadian women to their Majesties.

The Sultan of Johore and the Sultan, the former Mrs. Helen Wilson, a Scottish widow, were particular targets of inspection in the parade of carriages along the Mall.

The Sultana of Johore wore her priceless state jewels, most dazzling of which are a diamond tiara, a collar of diamonds of incalculable value and a shoulder cape of diamonds. The Sultan was attired in blue and gold uniform decorated with jeweled orders.

London, May 20.—Twelve Canadian women are to be presented to the King and Queen at the second of the royal courts at Buckingham Palace this evening. The presentations will be made by Mrs. G. H. Ferguson, wife of Canada's High Commissioner to Great Britain.

The Canadian women are Mrs. Robert and Lella Mackenzie of Montreal, Mrs. Clifford McEwen of Ottawa, Miss Kathleen Kingston of St. Catharines, Ont., Miss Helen Langmuir of Niagara Falls, Ont., Mrs. Robert and Miss Mary Denniston and Miss Jocelyn Botterell of Winnipeg; Mrs. Frederick Hammond and the Misses Fredericks and Priscilla Hammond of Banff, Alta., and Miss Helen Boyle of Edmonton.

Mrs. Ferguson's gown is of apricot satin vaporous with corse embroidered in jewels of even tone, the skirt falling in graceful lines from the waist. The train is of the same material with handsome brocade applique. Over her gown she will wear a panne velvet coat of deeper shade with ermine collar.

Mrs. Frederick Hammond will wear a classical gown of mauve crepe, beauteous with a long train, hanging from the shoulders, of the same material. She will have pearl and diamond jewels and carry a large feather fan of a delicate mauve, shading to emerald.

Miss Priscilla Hammond's gown is of pale pink satin, with train of the same material lined with silver and hanging from the shoulders. She will wear a halo head-dress of pearls and carry a single-feather fan of pink, shading to rose.

Mrs. Fredericks Hammond will wear a gown of old ivory crepe, beauteous with a long train, hanging from the shoulders and edged with gold. Her head-dress is of pearls and crystals and she will carry a bouquet of sweetpeas and lilies of the valley.

PRINCIPALS IN TO-MORROW'S SMART WEDDING

MISS MYRTLE GALE
The marriage of Miss Kathleen Myrtle Gale, eldest daughter of the late Brigadier-General H. R. Gale, R.E., C.M.G., and Mrs. Gale of "Bardsey," Sannich, to Count Colville of Culross will take place to-morrow at St. Stephen's Church, Mount Newton.

Mrs. Annie Dalton Becomes Bride of Capt. Robert Thomson of Princess Norah

A wedding of much interest on the coast, particularly in shipping circles, was solemnized at the First Baptist Church yesterday evening at 8 o'clock, when Mrs. Annie Dalton, niece of Capt. John McLeod, retired C.P.R. skipper, became the bride of Capt. Robert Thomson, popular skipper of the Princess Norah. Rev. G. A. Reynolds performed the ceremony in the presence of a large gathering of friends of the bridal couple.

Mr. and Mrs. R. P. Butchart of Tod Inlet were passengers aboard the liner H. P. Alexander, which sailed from Victoria yesterday evening for California. They will spend a few weeks in southern California before returning to their home here for the summer.

Mrs. John Dempsey of 712 Vancouver Street, who has been appointed Vancouver Island Presbyterian delegate to the Dominion Council of the W.M.S. of the Presbyterian Church in Canada, was given a surprise party and miscellaneous shower on Monday afternoon by some of her intimate friends. A pleasant afternoon was spent, after which a delicious tea was served, convened by Mrs. J. Dempsey of Bushby Street. Those present were: Mrs. Wells, Mrs. Hughes, Mrs. McKague, Mrs. Smiley, Mrs. G. Randall, Mrs. W. A. Dempsey, Mrs. Stewart, Mrs. Pinkerton, Mrs. J. P. Dempsey, Miss Betty and Eleanor Dempsey, Miss June Smiley, Mrs. Beverly Macarey and Master W. Wells.

Lilyan Tashman Sued For Assault By Film Actress

Los Angeles, May 20.—Joseph Marchetti, attorney for Alona Marlowe, screen player, announced yesterday that Miss Marlowe's battery charges against Lilyan Tashman, blonde film actress, had been settled out of court for a "very nominal cash consideration."

Milton Cohen, attorney for Miss Tashman, confirmed the statement.

Miss Marlowe complained to the city prosecutor that Miss Tashman beat and kicked her in the studio dressing-room of Edmund Lowe, husband of Miss Tashman. Miss Marlowe said she had gone there with friends, and that she was alone when the alleged attack was made. Miss Tashman denied the charge, saying she did not know Miss Marlowe.

V.O.N. Made Many Nursing Visits During April

A total of 2,030 visits, including 560 nursing bedside visits, and 1,470 instructive and educational visits were made by the local branch of the Victorian Order of Nurses, according to the reports presented at the monthly meeting of the board on Monday. In all, 132 patients were nursed, including sixty-eight medical cases, ten communicable diseases, five surgical, fifteen pre-natal, two confinements and six post-natal. During the month the nurses also attended four well-baby clinics, four classes and five meetings.

Donations were gratefully received from Mrs. Napier Dennison, Mrs. Allan, baby clothes, Graham Street; Mrs. H. Wilson, Mrs. Langley, Mrs. John, Mrs. A. Johns, A. Friend, Mrs. Ferriotti, Mrs. G. Wilson, Mrs. O. Murray, Mrs. W. G. Cameron, Mrs. C. E. Williams, Mrs. K. O'Neil, Mrs. G. Holland, Mrs. Anny, Mrs. Hutchinson, Kiwanis Club and Mrs. F. O. Patterson.

Novel School "At Home"

The staff and students of the Provincial Normal School will be "at home" to the interested public on Friday, May 29, from 2 till 5:30 o'clock. There will be an interesting exhibition of the work of the students.

JERUSALEM CITY OF RELIGION BUT NOT RELIGIOUS

Rev. Dr. W. J. Sipprell Tells Women's Canadian Club Impressions of Holy Land

Describes Unchristian Animosity Between "So-called Christian Faiths"

"As far as the walled city of Jerusalem is concerned, it seems to be the most religious spot in the world, yet with the least possible religion in it," said Rev. W. J. Sipprell, D.D., in the course of an interesting address on "The Jerusalem of To-day" before the Women's Canadian Club yesterday afternoon.

Dr. Sipprell has just returned from a sojourn of three weeks in Palestine, and his impressions were based upon the viewpoint of the Bible student, rather, as he explained, than from the political or economic standpoint. After touching upon the physical characteristics of the city of Jerusalem and its historic sites, Dr. Sipprell observed that in none of the most sacred places so-called Christian faiths maintain such a spirit of animosity one to the other as to necessitate the use of armed guards to preserve peace between them—a shocking and sad commentary upon the so-called Christian faith.

ARMED SOLDIERS IN CHURCH

One particular instance he cited was that of the Church of the Holy Sepulchre, which is built upon the alleged site of the crucifixion and burial of Christ—although this is challenged by those who accept General Gordon's "Garden Tomb" as the real site of Christ's burial and resurrection. In this Church of the Holy Sepulchre, five Christian faiths—the Roman Catholic Church, the Greek Catholics, the Coptic Christians, the Jacobite Church of the Assyrians and the Armenian Christian Church—have each a section in which each holds simultaneous services five times a day five days a week.

The bewildering hub-bub and confusion caused by the coincidence of these services, each in a different language and with differing ceremonial, accompanied by the beating of gongs or sounding of bells at various points in the ritual, and their effect upon the visitor accustomed to quieter methods of worship, is accentuated in the opinion of Dr. Sipprell, by the presence of British soldiers, armed to the teeth, who are stationed in the church to keep peace. Such a measure was rendered necessary owing to the methods which have arisen on various occasions as when, for instance, an Armenian Christian happened to set

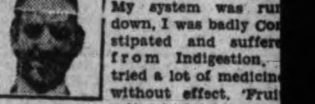

CRUSADES "TRAGIC MISTAKE"

In Jerusalem, continued Dr. Sipprell, one is reminded of "one of the most tragic mistakes made by Christian upon the Moslems—the Crusades." He recalled that the Crusaders believed that by sticking their hands into the blood of an infidel they would please God, and to this end the blood of 70,000 Moslems was shed. But in after years, when the Moslems again entered the Holy City, they forgave the Christians, and the speaker had heard it said to this day many residents of Jerusalem adhere to the belief that "if you want someone to trust turn to the Moslem and forget that there are Christians in Jerusalem."

(Concluded on Page 7)

Ended Pimples and Constipation of 9 Years Quick

Look and Feel Like New Man Since Began Taking "FRUIT-A-TIVES"

"I was bothered with ugly pimples 9 years. My system was run down, I was badly constipated and suffered from indigestion. I tried a lot of medicine without effect. Fruit-A-Tives quickly drove away Pimples and ended Stomach Distress and Constipation. I feel like a new man."—William Fallowell, Pembroke, Ont.

Thousands praise "Fruit-A-Tives"—the quickest, surest relief for pimples, constipation, indigestion, biliousness, aches, back pain, nervousness. Why? This famous Canadian doctor's discovery combines 6 of the finest herbs, tonics with a special secret extract of apples, oranges, prunes and figs. Remedies to make Nature's keep you well. No habit-forming drug. Get "Fruit-A-Tives" from druggists to-day. New health, vigor quick! Results guaranteed, or money refunded. (Adv.)

foot across the section reserved for the Greek Catholics.

COMMERCIALIZED RELIGION

To add to the grotesquerie of the situation, said Dr. Sipprell, the alleged holy relics of every description have been commercialized in the church to a degree incomprehensible to one used to western ideal of Christianity.

The bitter animosity between the Jew and the Moslem was everywhere apparent in the walled city, according to the speaker. He recalled the history of the Mosque of Omar, built upon the original site of the Holy City, which no Jew dare tread. Yet outside it was the famous "wailing wall," where for centuries Jews have held their prayers, and where from time to time encounters have arisen between members of the two faiths. The Moslems also look with distrust upon Hebrew attempts to "nationalize" Palestine, fearing that in the event of such a vast rehabilitation of the Jews the Moslems would be ousted from a land where they have lived for centuries.

FREE Cooking Demonstrations

YOU are cordially invited to come and see the following menus prepared:

THURSDAY, MAY 21 2.30 to 4.30 p.m.

Roast Beef
Horse Radish Sauce
Beets
Baked Potatoes
Rhubarb Betty
Parkerhouse Rolls
Cherry Shapes
(Made in the Refrigerator)

FRIDAY, MAY 22 2.30 to 4.30 p.m.

Oven Dinner—
Fish with Tomatoes and Potato Balls
Made in the Refrigerator—
Gooseberry Fudge
Cakes

These demonstrations are becoming more and more popular with Victoria women, and we cordially invite you and your friends to attend.

The Place: B.C. Electric Auditorium, in our Douglas Street Showrooms.

The Time: Thursday and Friday, 2.30 to 4.30 p.m.

Recipes for the Above Menus will be distributed.

Countess Willingdon Talks With Mrs. Gandhi

Simla, India, May 20.—Countess Willingdon, wife of the new Viceroy, captured the hearts of India's women yesterday when she received Mahatma Gandhi's wife at the viceregal castle and talked with her more than an hour.

Mrs. Gandhi promised to send her some of the homespun "kuddar," of which her own gown was made.

St. John's Concert—St. John's A.Y.P.A. concert, which is being given in St. John's Sunday schoolroom this evening at 8 o'clock, will include the following items: Pianoforte overture, Helen Ockenden; opening chorus, St. John's A.Y.P.A.; recitation, "Discovery of America," Miss H. Bowden; solo, "Pipes of Pan," Miss Iris Smith; sketch, Reg. and Jim MacDonald; and Jack Archer, piano solo, Jessie Jones; quartette, "Beautiful Ohio," K. Smith, H. Bowden, R. Bonstow and C. Jeeves; sketch, "The Wedding Present," C. Jeeves, J. MacDonald and E. Boss; recitation, H. Munell; piano duet, J. Jones and H. Ockenden; solo, "The Carnival," C. Jeeves; pot-pourri of melody, A.Y.P.A. girls.

TEACHER CLASS EXAM AWARDS

Department of Education Announces Results of U.B.C. Training Class

The examination results of the teacher training class for university graduates, held at the University of British Columbia during the year just closed, are announced. There were seventy students in attendance, of whom nine have been awarded first class standing, forty-five second class, and four pass standing. Besides these, eleven were granted standing with supplements in one subject. Successful students are awarded a diploma in education by the university. A graduate of a Canadian or British university who holds this diploma in education is qualified to receive an academic teacher's certificate from the Department of Education. The academic certificate entitles the holder to teach

in any high, junior high or elementary school in the province.

The names follow:

Class 1 (eighty per cent and upwards)—Helen Bell, Eric Kelly, Thomas Sanderson, Marjorie Waites, Margaret Loch, Olive McKeown, Eileen Winch, Mary Campbell and Beth Pollock.

Class 2 (sixty-five per cent to seventy-nine per cent)—Naomi Cornish, Thomas Chalmers, Maxine Chapman, John Litch, Jean McDougall, Carl Wicklund, Doris Young, Frances Bell, Thomas Kirk, Milahla Petrak, Neva Webster, Ruth Henderson, Olive Malcolm, Isuyuko Negro, Harold Paul, Reginald Rodson, William Smith, Sally Collier, Ella Hardy, Marjorie McKay, Margaret Irvine, Ernest Cupit, Evelyn Hanes, Jean McCulloch, Thelma Mahon, David Rogers, Katherine Scroggie, Edith Bowman, Ruby Horton, Cecilia Lander, Arthur Linfield, Euid McEwen, Agnes McLernan, Katherine Reid, Dorothy Savage, Gertrude Savage, Henry Herlihy, Roland Gray, Ruth McKee, Ema Henderson, Florence Whitford, Margaret Bedford, Bishop Black, Harold Fullerton and Marion Sproule.

Passed (teaching averages below sixty-five per cent)—Hazel Fuller, David MacDonald, Thelma Johnson and Miranda Laurence.

Passed with supplements—Maurice Baker, Kathleen Brown, Dora Bush, Cherrie Campbell, Maurice DesBrisay,

Dance To Follow J.B.A.A. Regatta Saturday Night

As a climax to the regatta to be held in the afternoon, the James Bay Athletic Association will hold a dance in their spacious clubhouse at the Gorge on Saturday evening, commencing at 9.30 o'clock. The prizes won at the regatta will be presented to the winners during the evening, and the dance promises to be one of the jolliest of the week-end festivities. A programme of the latest music will be provided for dancing, and refreshments will be served.

Canadian Daughters' League.—Assembly No. 8, Canadian Daughters' League, will hold their regular meeting in the Shrine Temple Thursday evening, when the newly-elected officers will be installed. Other important business will come before the meeting. A full attendance is looked for.

SAYS "MOTHER INDIA" TRUE

Indian Princess Says British Rule Will Wipe Out Sorrows of India

Toronto, May 20.—"Mother India," unfortunately, is true, Katherine Mayo's only mistake is that it is not true of all India," said Mrs. Millicent Mackinnon, widow of an officer of the 93rd Highland Regiment, and herself by birth a princess of India, addressing the Canadian Women's Press Club here yesterday.

"Caste is the great handicap of India, Britain and Christianity will remove this, she declared. The sorrow of India, she said, would be wiped out in a few years by medical missionaries, British protection and schools.

"I hate to think what would happen were Britain to move out of India now," she said. "If the United States went to India she could not do as well as has Britain."

Your Baby and Mine

By MYRTLE MEYER ELDRED

DIET, FRESH AIR, SUNSHINE, REST ALL IMPORTANT

FAILURE TO GAIN MEANS SOME HEALTH RULE IS VIOLATED

The baby under one year makes gains that are in relation to his birth weight, and are somewhere near the average weight for his age. After one year of age we begin to relate weight to height and expect that the tall child will weigh more, at any age, than the short one.

Mrs. F. K. wonders if she should worry because her seventeen-month-old child weighs only twenty-two pounds though he weighed seven and one-half at birth. She says, "He is very strong and active, has twelve teeth, but is not a very hearty eater. I have been giving him cod liver oil since his sixth month. He eats all kinds of vegetables, eggs, bacon and drinks his milk."

FRUITS AND CEREALS OMITTED

Worry is a useless emotion unless it inspires you to find out why the child has gained but one pound in six months instead of the three pounds which you should have expected. There is nothing wrong with the diet you are giving except that you are mentioning neither fruits nor cereal in your outline. Was this simply forgotten or are these essential foods being omitted?

But, however good the diet, it is more or less wasted if the child lacks the appetite to consume the amount of food he needs. There is very little to be guessed from what you have told me. I do believe a good pediatrician could discover the cause of the puny appetite. All I can suggest is that you send me a self-addressed, stamped envelope and let me send you "Week's Menu From Twelve to Eighteen Months," and the leaflet enumerating "Physical and Psychological Causes of Appetitelessness." Compare your present diet with this one and try to discover what causes may be affecting the child's desire to eat.

Also, it often happens after the first year that the baby receives insufficient rest. We forget that baby's activity is sometimes his worst enemy. For he runs until he drops and insists vehemently that he does not want to go to bed.

NEED FOR SLEEP VITAL

Yet his need for sleep is as vital during all the growing years as it is the first, though the number of hours he will sleep diminishes. He should have a rest period right after his lunch every single day, even if he does not nap but just lies in his bed and plays with his toys. He should be brought in at least an hour before dinner, given a sponge bath, dressed in his nightclothes, and set to playing some quiet game, with pots or pans or blocks. This puts him in the proper mood for restful slumber.

Adults notice if they sit up past their regular bedtime they revive and become brighter and more wide-awake than usual. These are common experiences, yet parents make the practice of allowing small children to stay up later and later at night waiting for them to get sleepy.

No more hopeless sleeping problems exist than just such little night owls. They never want to sleep. Good diet, plenty of fresh air and sunshine, and sufficient rest are the answers to almost everything. Which one of these health rules is being violated with the result of retarding the child's gain in weight?

To-morrow: "The Thermometer Should Dictate Clothes"

First United W.M.S. Hear Address On Cariboo Mission

The May session of the W.M.S. of First United Church was held on Monday with Mrs. M. L. McInnes presiding. It was unusually interesting on account of four of the delegates to the conference taking part. "Mrs. Bell's direct conduct of the worship service and Mrs. Travis sang a solo, accompanied by Mrs. Miller. The secretary, Mrs. Jessie Smith, and the treasurer, Mrs. A. Campbell, gave their reports.

The president expressed the regret of the society in the passing of Miss Travis, a member and Sunday school teacher. Two new members and visiting delegates were warmly welcomed. Supplies for hospitals and missions were received by Mrs. J. S. Conybear, acting for Mrs. Stewart, the secretary, and much literature for distribution in camps and settlements were received by literature secretary, Miss Rattray and consigned to the mission ship, Sky Pilot.

Rev. Currie Thomson gave an interesting recital of five years' missionary work in the Cariboo district with Cornell as his headquarters. He spoke of the beauty of its situation, the hospitality of the people and their eagerness to hear the gospel. His experience taught him many avenues to reach the human heart in order to get a hearing. Four services a Sabbath over long distances in his car and personal contacts kept him busy. Mrs. Hoey voiced the thanks of the meeting to Mr. Thomson for his address.

Rev. M. Fleming spoke of his work at Burns Lake, where a small hospital was already in operation, but was proving inadequate to the need. However, a larger and more efficient building was in prospect. Messrs. Cameron and Crisp, two of the newly ordained ministers at the present conference were invited to address the meeting, which they did briefly and were assured by the president of the society's earnest wishes for their success in their several fields and that the society would do all in their power to assist and encourage them.

Mrs. J. H. Fletcher's kind offer of an open meeting in July was accepted with thanks.

The president drew attention to the quarterly meeting on the third week in June when reports would be received from every department, and hoped that the quarter's past of the association would be fully met. The singing benediction closed the meeting.

The Girl Who Is Different

What are the secrets of her charm—the cut of her clothes—the color of her clothes—the style, color? The answer is, not entirely—but invariably and always they are spotlessly clean and very often the craftsmanship of New Method Service.

Jerusalem City of Religion But Not Religious

(Continued From Page 6)

From the standpoint of Jewish history, Jerusalem was fascinating to the student, continued the speaker, as he recalled that here had been the home of the great prophets, priests, and kings of the Old Testament. "For where will you find a greater king than David, where a wiser man than Solomon, where a greater saviour than Jesus, where a mightier prophet than Isaiah?" the speaker said.

NOISOME CONDITIONS

He spoke of the walls which have been built around Jerusalem, the first by David, the second in the time of Nehemiah, and the third built by Herod the Great. Within the walls of the city 70,000 people live in an area of about 210 acres, and the two principal streets—David and Christian streets—are packed with small, uncleanly shops, the centers of disease, dirt, beggary and noisome conditions, full of all that is objectionable to the eyes and the nose, according to Dr. Sipprell. But outside the walls is the new Jerusalem, the modern city, with its fine buildings and its modern institutions.

Visits to other parts of Palestine were recalled by Dr. Sipprell, who gave a moving description of an Easter morning service conducted in the "Garden tomb" by a little band of Quakers, and told of his visits to the Garden of Gethsemane on Good Friday evening, when the full moon became obscured in a total eclipse, "as if to remind us of the agony of Christ through the long hours of darkness."

UNDER BRITISH MANDATE

Dr. Sipprell made brief reference to the improvements made in conditions since Palestine came under the British mandate, the problems which had existed seven years ago having been cleared out, splendid roads built and the people enjoying a measure of freedom such as had never been experienced under Turkish rule. He showed a number of interesting souvenirs, including exquisite examples of native craftsmanship and of needlework made by the women.

MUSICAL PROGRAMME

Mrs. A. S. Christie moved the vote of thanks to the speaker, who was introduced by Mrs. P. A. Stewart, the president. Mrs. Christie was the soloist, singing with much feeling Saint-Saens' "My Heart at Thy Sweet Voice" and Massenet's "Elegie." Master Hugh McKinnon, who won the Women's Canadian Cup at the festival, selected the gathering with two recitations, "It Might Have Been" and "The Gingham Dog and the Calico Cat."

\$10 DOWN

Now—you can own a General Electric Refrigerator for only ten dollars down, and over two years to pay the balance. You will find that the small monthly payments can be practically covered by your savings in food bills.

DISTINCTIVELY MODERN in Design and Beauty

ONE glance tells you that the "General Electric" is an electric refrigerator. It is truly modern in design . . . as different from older-style refrigerators as 1931 motor cars are different from the first "horseless carriages".

Note the distinctive Monitor Top. Inside this small unit is all the simple mechanism—hushed in a permanent supply of oil—sealed air-tight behind walls of steel. Dust-proof, moisture-proof, tinker-proof!

In nearly a million homes, the General Electric Refrigerator has attained a record of expense-free service unequalled in the industry. Because of this record General Electric now offers you an unequalled Three-Year Guarantee.

We invite you to inspect the General Electric Refrigerator. It is built of ageless steel and lined with gleaming porcelain. Graceful legs permit broom room. Interiors are unusually spacious and provide three temperature zones.

You need a General Electric Refrigerator now. See the nearest dealer and learn how easy it is to have a General Electric in your home.

THE SPORTS MIRROR

Dual Umpire System Would Be Better Plan in Local Ball League

Single Umpire Is Not Fair to Either Players or Arbitrator

Historic Carnoustie Gets British Open Tourney for First Time

Will Be Another Battle Between British and United States Stars

AFTER being an interested spectator of the Senior Amateur League ball game on Monday evening, a writer has reached the conclusion, it appears that the league officials made a mistake when they adopted the plan of using only one umpire instead of two, as has been the case for several seasons. There is no doubt that two officials are better. It is only natural that two pairs of eyes can see more of what goes on than one. We would suggest the league heads return to the dual umpire system. It would do a lot to improve the game.

We are not suggesting that the pair of umpires who are now working the games alternately are not efficient and don't know their business. We are just trying to point out that it is not fair to one umpire to expect him to handle an entire game himself and handle it efficiently. It is an impossible task. In the first place the proper place to call balls and strikes is in behind the catcher, and with one umpire officiating it is impossible to be behind the plate when there are runners on first and second base.

And then again, when calling plays on the bases it is only right that the umpire should be right over the play to see if the player with the ball touches his opponent coming into the bag. Many times the player dashing into the base makes a neat slide that carries him in safety out of reach of the ball, but if an umpire is not right close he often calls the player out. This is hard luck on the base runner, as if he is smart enough to make the slide, he is at least deserving to get the right call. Of course it works the other way too. By that we mean sometimes runners are called out when they are not, but with an umpire right on the spot he has every chance to make the right call.

A good objection to the one-man umpire system was seen on Monday evening. On three different occasions the umpire was calling balls and strikes from back of the plate with nobody on the bases. It was just a case of his not noticing, but it is unfair to the pitchers as an umpire cannot see the corners of the plate properly from that distance. Pitchers deserve all the break possible.

For the first time in the history of the British open golf championship, which reaches back to 1860, this year's event will be played at Carnoustie, midway between Edinburgh and Aberdeen, on the northeast coast of Scotland. Following a custom born ten years ago, the British event which starts June 1 again looks like a typical British-American fight.

Defence of the British prestige depends almost entirely on the three Whitcomb—E. R. R. A. and C. R. who captains the British Ryder Cup team when they invade the United States later in the month—Archibald Compston, Fred Robertson, George Voigt, John Kirkwood, and George Wethered. There will be some others, but any damage they may do will be figured as an upset.

United States invading forces this time will be without the matchless leadership of one Robert T. Jones, but in his place will be ten or more very able lieutenants. These include Macdonald and Horton Smith, Wiffy Cox, Al Espinosa, Tommy Armour, Gene Sarazen, Johnny Farrell, George Voigt, Joe Kirkwood and Tony Manero.

France, too, will send her delegation, but only once has a Frenchman won the title.

Although Carnoustie enjoys the reputation of being one of the best courses—some say the very best—in the world, this famous old "gow" links set down on the bay north of the River Tay never has had the honor of brother Archibald, one of all golf racers. This is due, probably, to its close proximity to St. Andrews, bordering the same bay but south of the Tay, where the Open was played as early as 1865.

Still, one can't say that Carnoustie has been lax in producing her quota of the famous Old Bob Simpson started it all back in 1882. Since then a steady procession of renowned professionals has branched out from this spot north of the Tay.

Brother Jack Simpson, British open champion in 1894, was next after Bob, followed shortly by brother Archibald, famed as the most graceful stylist of his day. Then came the Smiths—George, Alex, Willie and Mac—the Meldens, Jim and Stewart, Dave Bell and a host of others.

Jokers to Meet Wests in Soccer Final Saturday

After coming through the semi-final when Victoria City defeated them on Saturday, Jokers will face Victoria West in the final of the Feden Cup soccer games at Beacon Hill Park on Saturday at 2 o'clock.

Both teams are reported to be strong, and a close game is expected.

The Wests went into the final with a victory over Duncan some time ago,

King's Plate Draws Splendid Entry For Running On Saturday

Historic Canadian Horse Race at Woodbine Park, Toronto, Will See Score of Thoroughbreds Face Barrier; Oldest Race Contested Continuously on the Continent; Frothblower, Favorite Since Last Winter, Faces Stiff Opposition; \$10,000 Added Goes to Winner

Canadian Press

Toronto, May 20.—About a score of thoroughbreds will go to the post in the seventy-second renewal of the King's Plate at Woodbine Park here on Saturday, May 23. They will be contesting the oldest horse race run continuously on the continent. The King's Plate (it was the Queen's Plate then) had royal patronage from its beginning in 1860, and has come to be the classic of the Canadian turf, with the same appeal in this part of the dominion as the Derby at Epsom Downs or the Kentucky Derby at Churchill Downs.

SARPOLIS TO MEET KRUSE ON SATURDAY

Wrestling Cleveland 'Medico' and Portland Heavyweight in Eight-round Bout

Ernie Arthur and Des Anderson in Semi-windup; Brooks Will Meet Foregren

One of the best wrestling cards in months is slated for Saturday night at the Tillikum gymnasium. Promoter Fred Richardson has been burning up the wires between here and Portland in an effort to get the fans a good show, and he appears to have succeeded. In the eight ten-minute-round main event Dr. Sarpolis, the wrestling "medico" from Cleveland, will meet Bob Kruse, Portland heavyweight. This pair are two of the smartest big fellows that have shown here, and the bout should prove popular.

Sarpolis is returning after a long sojourn in California rings, during which time he has scored a number of notable victories. In his last appearance here "Doc" defeated Stanley Pines, Sarpolis' old foe in Victoria. This pair have met twice before in a local ring with Arthur gaining the verdict in one bout, while the other was a draw.

In the opening preliminary "Rocky" Brooks, local heavyweight, will meet Jack Foregren, Vancouver, over three rounds.

The first bout will start at 8:45 o'clock.

ARTHUR MEETS ANDERSON

In the five-round semi-windup Des Anderson, crack Seattle middleweight, will be matched with Ernie Arthur, Victoria. This pair have met twice before in a local ring with Arthur gaining the verdict in one bout, while the other was a draw.

In the opening preliminary "Rocky" Brooks, local heavyweight, will meet Jack Foregren, Vancouver, over three rounds.

The first bout will start at 8:45 o'clock.

San Francisco, May 20.—Joe Maloney, 23, 140 lbs., defeated Jack Rogers, Oklahoma City, two out of three falls in a wrestling match here yesterday evening.

Rogers won the first fall in thirty seconds with a headlock. Maloney took the second in twenty-one minutes with a flying half Nelson and croch hold, and quickly won the match by taking the third fall in three minutes with a body slam.

Maloney weighed 198, Rogers 220. Freddie Meyer, 194, Chicago, and Ad Santel, 190, Oakland, California, wrestled one hour to a draw. The match was slow with no falls.

John Kananjian, former Stanford football player, tossed Pete Lejini, Italy, in eighteen minutes with a hammerlock. Kananjian weighed 210, five pounds more than his opponent.

Walla Walla, Wash., May 20.—Stanislav Zybasko, 23, 140 lbs., Polish wrestler, fell on Stanley Pinta so savagely in a wrestling exhibition here yesterday evening that Pinta was unable to continue and Zybasko was awarded the match.

The decision came in the fourth round. Pinta had taken a fall in the first round.

Tacoma, May 20.—Charley Hanson, Seattle, lost to Bob Kruse, Portland, on a foul here yesterday evening in a wrestling exhibition. Each grappler had gained a fall when Hanson hit Kruse on the jaw with his fist. The referee gave Kruse the bout. They were heavyweights.

In the semi-final John Foregren and Howard Cantonwine went five rounds to a draw. Each gained a fall. They were heavyweights.

Manchester, N.H., May 20.—Ed. Don George, yesterday evening won two falls from Charlie Lepanos, Polish heavyweight wrestler, the first in twenty minutes with a reverse double arm lock and body lift, and the second in seven minutes with a rush which carried Lepanos off his feet.

Tracy Cox Scores A Technical K.O.

Indianapolis, May 20.—Tracy Cox, Indianapolis lightweight, scored a technical knockout in the second round of a scheduled ten-round boxing contest here last night when he defeated Willie Phillips, Philadelphia.

Willard Brown, Indianapolis junior welterweight, easily defeated Tommy Wilson, St. Louis, in eight rounds,

And like all great horse races the King's Plate has its glorious uncertainties. For a time during the winter it looked as though the 1931 Plate would be a walkover for R. W. B. Cowie's fine Frothblower. Frothblower, owned by Cudgel out of Christyberil, won four starts and was second four times out of his eight races as a two-year-old last season. The only horse to beat him were the Segrans Stable's Spherette and Connie Smythe's Rare Jewel. And both Spherette and Rare Jewel died during the winter.

Frothblower, however, will face strong opposition when the barrier is sprung and the field is off on the mile and one-eighth race, which has \$10,000 added and the King's fifty guinea waiting at the finishing post. The Segrans Stable holds a strong card in Frothblower, Golder and Toe Dancer. The Thoroughbred Stable, winners with Shoreland two years ago, have a promising pair of contenders in Bronze and Oil Rite. Ryland H. New, winner last year with Aymond, plus his hopes on the four-year-old Par Excellence and the three-year-old Royal Guest. Besides the eight named, there is always the possibility of surprise from the lesser known runners.

VENERABLE HISTORY

The King's Plate began as a mile and one-half race, the same distance as the Epsom Derby. The royal donation of fifty guineas had been received from Queen Victoria in 1859, upon the petition of the Toronto Turf Club. The first "Queen's Plate" was run at Carleton, now West Toronto, in 1860, and was won by James White's Don Juan. In 1864 the race was moved to Guelph and for some years thereafter was shifted around at the whim of the political powers-that-be. London, Woodstock, Woodbine, Prescott, London, Picton, Ottawa, Woodbine and London—so the thriving young classic has shuffled back and forth between 1860 and 1882.

But in 1883 the Queen's Plate came back permanently to Woodbine Park, now a beautiful racing plant in the heart of the city. The distance was cut to a mile and one-quarter in 1887 and again, in 1924, was reduced to one mile and one-quarter. The money value of the race had increased with its prestige until it carried \$15,000 added by the Ontario Jockey Club, but this was reduced to \$10,000 in 1927.

On the long roll of winners from the early days of horse-racing in the province until 1960, the Segrans Stable has been conspicuous with eight victories, the latest of them with that fine filly, Young Kitty, in 1928. James White, whose horse won the initial race in the series, repeated three times later—in 1863, 1867 and 1868. No stable is likely to repeat the Segrans record, which included eight consecutive victories between 1891 and 1898.

NOTABLE YEARS

Ryland H. New's Troulet, winner in 1927, holds the time record since the King's Plate was reduced to a mile and one-quarter. Troulet covered the distance in 1:53.4. When it was a mile and one-quarter the honors had been shared among three horses—St. Bass, 1911, Belle Mahone, 1917, and Springdale, 1924. The two-year-olds have never left Canada and have never been for a period of more than three months out of the province. Thus, the four and five-year-olds in the race on Saturday—notably the four-year-old Frothblower and W. E. Bulmer's five-year-old Postville—have not only failed to win since they were juveniles, but have to give weight to the three-year-olds. Frothblower, indeed, was a highly regarded candidate for last year's Plate, but hurt his knee in training and did not race as a three-year-old. Now he comes back, apparently sound and fit, as the most outstanding of the many unknown quantities in the race.

For the first time, the King's Plate this year does not make the feature of a brilliant opening of the Canadian Turf season. Thornecliffe Park, on the outskirts of Toronto, opened the Canadian season on May 13. The Woodbine meeting from May 23 to May 27 has several good features, some of the most valuable races of the Canadian turf.

BRILLIANT MEETING

Sharing honors with the King's Plate is the semi-final of the three-year-old stakes, \$5,000 added, at two miles, to be run on May 23. May 25, the Woodstock Plate (1885) for three-year-olds, \$3,000 added, is run over the mile and one-half distance. The Breeders' Stakes (1889) for three-year-old Canadian bred, \$5,000 added, is run at 1-1/4 miles, and the King Edward Gold Cup (1903), a handicap of 1-1/4 miles, will be run on May 27.

An important race for juveniles, the Victoria Stakes (1921), with \$3,000 added, at five furlongs, is run on May 29.

WRIGHT PLAYS SHIELDS AND RAINVILLE MEETS WOOD IN NET CLASSIC

Mount Royal Tennis Club, Montreal, May 20.—With customary formality the draw was made this morning for the pairings and order of play in the two singles matches which mark the first day's play in the Davis Cup tie between the United States and Canada.

As a result, on Thursday afternoon Frank X. Shields of New York will play Dr. Jack A. Wright of Montreal, each of them No. 1 man on his team, following which Sydney B. Wood of New York will face Marcel Rainville of Montreal.

Woods and Shields, with Wilmer Allison of Austin, Texas, composed the United States team which swept the Davis Cup series with Mexico the first of this month.

Big George Twirls Fine Ball and A's Continue Mad Dash

Earnshaw, Hero of Last World Baseball Series, Holds Detroit to Two Hits as Teammates Pound Out 5-to-0 Victory for Philadelphia's Eleventh Straight Victory; Yanks Beat Cleveland to Keep Pace With American League Leaders; St. Louis and New York Giants Both Win to Continue Hot Race for National League Lead

Major league baseball teams are busy these days proving that forecasts of a close race in the National League and the Philadelphia Athletics again in the American were correct.

The St. Louis and New York National League clubs are battling for the lead only a half game apart. The Athletics, while they have not been able to outdistance their leading rivals, are on top and have done their best to make it a runaway by winning eleven straight.

TOURING NEW ZEALAND TEAM EASY WINNERS

Defeat Marylebone Club at Lords By an Innings and 122 Runs Yesterday

Visiting Bowlers Perform Well; Wally Hammond Bats Well for Gloucester

London, May 20.—The touring New Zealanders won their cricket match with the Marylebone Club at Lords yesterday by an innings and 122 runs. New Zealand concluded their first innings yesterday for 302 for nine wickets and declared. Two fine fifties by the visitors' bowlers explain the M.C.C.'s collapse. Crebb took six wickets for 46 runs in the M.C.C. first innings, which netted them 132 runs, and Merritt took seven wickets for only 28 runs in their second innings, which brought a trifling 48 runs.

A wonderful bowling performance by Root, the Worcestershire professional, brought about the collapse and defeat of the champion county, Lancashire, by 126 runs. Root yesterday took nine wickets for 33 runs, to bring victory to the touring team. Scores were: Worcester, 169 and 117 (Dick Tiedley, six wickets for 28 runs); Lancashire, 76 and 95. The match was played at Worcester.

Kent defeated Derbyshire by nine wickets at Derby. Watt, of the former team, took four wickets for five runs. Scores: Derby, 150 and 137 (Townsend, 51; Freeman, four wickets, 73); Kent, 170 and 119 for one wicket.

Surrey defeated Hampshire on the first innings at the Kennington oval. Scores were: Surrey, 245 and 103 for two wickets declared; Hants, 127 for no wickets declared and 133 for five wickets (Mead, 56 not out).

HAMMOND BATS WELL

Gloucester got the points for a first innings lead against Sussex. Gloucester scored 289 for five wickets, declared (Hammond, 168 not out), and Sussex 107 and 278 for three wickets (Bowler, 103; and Cook, 101 not out). The match was at Brighton.

Nottinghamshire collected first-innings points from Northamptonshire. Notts made 302 for three wickets and declared (Walker, 102 not out; Carr, 140), and Northants 211 and 78 for two wickets. Scores were: Notts, 302 and 211 (Walker, 102 not out; Carr, 140); Northants, 211 and 78 for two wickets.

The Toronto Cup (1860), a handicap bringing some of the best handicap racers on the continent, with \$7,500 added, will be run over the mile and one-eighth distance on May 28, along with the 1885 Woodstock Plate. The Handicap (1907), for three-year-olds and upwards, \$3,000 added, 1-1/4 miles, and the Woodbine Steeplechase (1882), of 2 1/2 miles, with \$3,000 added.

It is interesting to note how many famous Canadian athletes of yesterday are teaching their sons to carry on in some particular line of endeavor in the sporting world. Perhaps one of the most outstanding among veteran athletes is George Goulding, who takes great pride in seeing his son as undefeated champion. Last year at the inter-faculty meet of the University of Toronto, George Jr. gained considerable points for his team.

Many old-timers who saw him personate others being coached by their once famous father. Not so long ago, Joe Wright Jr. won the world's major coveted prize by capturing the Diamond Steeplechase at Henley, which was the 25th anniversary of the 1906 Olympic Games. Now Tom Long-bow is coaching his son in hope that he will carry on the same name in the annals of sport.

Roger Wethered, Voigt and Cyril Tolley Eliminated In To-day's Surprises

Wethered Defeated One Up by Fine Play of William Tulloch of Catkins Braes; Wethered Was Finalist Last Year Against Bobby Jones; Tolley Beaten by Capt. H. C. C. Tippet Three and Two

VOIGT, LAST U.S. PLAYER, LOSES TO SYD. ROPER

Latter, a Young Insurance Clerk, Gave Bobby Jones Terrific Battle Last Year; W. Lister Hartley and J. A. Sout, Prominent British Entries, Lose in Fourth Round This Morning

Westward Ho, Devon, Eng., May 20.—George Voigt of New York, last American contender, was eliminated this afternoon in the fifth round of the British amateur golf championship by Syd. Roper, English star, by a margin of one up.

William Tulloch of Catkins Braes eliminated Roger Wethered. Wethered last year was finalist with Bobby Jones. In his starting upset Tulloch defeated Wethered one up.

An equally unexpected turnover saw the defeat of Cyril Tolley, champion in 1920 and 1929. Capt. H. C. C. Tippet conquered Tolley three and two.

CHICAGO CUBS MAY UNDERGO BIG SHAKE-UP

Owner Wm. Wrigley and Fans in Uproar Over Dismal Showing of Team

Hornsby Will Go on Carpet; Lose Six Out of Seven Games

Chicago, May 20.—Chicago's Cubs, only a few weeks ago the toast of the city, to-day were the "roast" of the town. They have failed miserably on their current road trip and the fans, who started to forget all about Manager Joe McCarthy when they dashed away from the 1931 National League barrier like a Twenty Grand, are back bemoaning and predicting all kinds of turmoil in the front office where owner, William Wrigley Jr., dreams of the world championship baseball team he says he and the fans of Chicago must have.

There is considerable doubt as to any "turmoil" in the Wrigley office but, there isn't much doubt but that Manager Rogers Hornsby would be called on to give his version of "what's wrong with the Cubs" when he confers with his chiefs Saturday. There isn't much doubt either but what he will be requested to shake the club from top to bottom, if necessary, to put it back in the pennant race.

The "Rajah" will bring his team, looser in six out of seven games so far on the eastern invasion, back to Chicago Saturday and will go to a huddle with the Cub-bosses almost as soon as he returns.

BEALES IN FINE SHAPE

Local Light Heavyweight Fighter All Set For Bout With Shaw on Friday

With Teddy Beales in first-class condition everything is set for the main event on Joe Bayley's fight card at the Variety Theatre on Friday evening when he will clash with Billy Shaw, Vancouver, in a ten-round bout. The pair are light heavyweights. The first bout on the show will start at 8:30 o'clock.

Beales wound up his training programme with a break workout yesterday evening and will rest up until Friday.

Dave Lewis, who is battling Harry Gerrard, Vancouver, in the six-round semi-windup is also all set for his bout. Lewis has engaged in two bouts in Port Angeles, winning one by a knockout and gaining a draw in the other.

Three other bouts will complete the programme.

Sickness Forces Change in Team For Bisley Shoot

Ottawa, May 20.—Substitution of Sgt. O. W. Fourn of the Black Watch of Canada, Montreal, for Pte. T. A. Fourn of Spadina, Alta., on the Canadian Bisley team was announced yesterday evening. Private Jensen declined a place on the team because of illness.

Tillicums Meet Eagles Nine In Senior Ball Loop

In the Senior Amateur League ball game scheduled at the Royal Athletic Park this evening the Tillicums, joint occupants of first place along with the Elks, will hook up with the Eagles. The game will get under way at 8:15 o'clock. Stickey will twirl for the Tillicums and Cornwall for the Eagles. On Monday night the Tillicums suffered their first defeat of the season at the hands of the Elks.

ILLNESS HAS FORCED COCHET FROM TOURNEY

French Tennis Star Withdraws From Hard Court Championships at Auteuil

Borotra Lone Hope of France For Victory; British Players Win Matches

Roland Garros Stadium, Auteuil, France, May 20.—Henri Cochet, the world's ranking tennis player, to-day officially withdrew from the French hard court singles championship, leaving Jean Borotra as the main reliance of France to protect the title from the United States.

With Cochet out, George Lott Jr. of Philadelphia, is conceded an excellent chance of meeting Borotra in the final.

Mrs. John Van Ryn, the former Madeline Gladman, was eliminated from the women's doubles. Paired with Mademoiselle Simone Barbiere, she was defeated by Madame Sylvia Henrotta and Mademoiselle Josane Sigart, 6-3, 4-6, 6-3.

Miss Elizabeth Ryah, London, and Cilly Aussem, Germany's brilliant young tennis player, had a walkover to-day.

COCHET SICK

Cochet telegraphed officials his health would not permit his entry. The officials held off the singles draw for another day, however, refusing to give up hope his condition would improve sufficiently for him to play. The singles do not start until next week.

Senorita de Alvarez and Mme. Rene Mathieu advanced to the semi-final round of the women's doubles by defeating Mrs. Concalavos Nicolopoulou and Madame Vlasto Serpiere, 6-1, 3-6, 6-4.

Miss Betty Nuthall, American women's singles champion, and Mrs. Ellen Bennett Whitehead defeated Mlle. Danet Speranza and Mme. Marie Daniel, 6-1, 6-2. Ian G. Collins and John S. Oliff, British pair, eliminated the first two, Krawinkel of Austria, eliminated Mrs. Mathieu and M. Lesueur, 4-6, 9-7, 6-4.

LOTT AND RYN WIN

George Lott Jr. and Johnny Van Ryn, American favorites in the French hard court doubles championship play, advanced into the quarter-finals by defeating Mrs. Concalavos Nicolopoulou and Madame Vlasto Serpiere, 6-1, 3-6, 6-4.

Virginia, Hiliary of Philadelphia, teamed with Norman Macpherson to defeat Mlle. Jeanne Goldschmidt and Paul Goldschmidt in the mixed doubles, 6-4, 6-2. Dorothy Andrus of Stanford, Conn., and Baron von Kheul of Austria, eliminated Mrs. Mathieu and M. Lesueur, 4-6, 9-7, 6-4.

Low Fonseca Will Report to Chicago

Chicago, May 20.—Fears that Low Fonseca would balk at the trade which sent him from Cleveland to the White Sox in exchange for Willie Kauts were dispelled yesterday when he wired Secretary Harry Gravin of the White Sox that he would report.

POOR PA

BY CLAUDE CALLAN

"I've bragg'd out my last month when she was spendin' the \$100 I made in the stock market, but when I lost \$200 this week she got mad an' said 'I was gamblin'!"

(Copyright 1931, Publishers Syndicate)

Saanich School Athletes Perform Friday

Students of District To Compete In Events At Beaver Lake Ground

Senior and Junior Grand Aggregate Trophies, Now Held by Cloverdale and Craigflower Schools, Feature Awards; Relay Races and Tug-of-war Expected to Furnish Plenty of Competition; Exceptionally Large Entry List Announced

Fighting for the coveted senior and junior grand aggregate cups, now held by Cloverdale and Craigflower respectively, young track stars from Saanich's fourteen-grade schools will meet for their annual sports day at Beaver Lake on Friday afternoon. The events will start at 1.30 o'clock, with junior races.

In addition to competing for the trophies, the boys and girls will struggle for individual supremacy in their specialized departments and promise exceptionally keen competition in the relay events.

Students of all ages, from under eight to well into the teens, will face the starter's gun in the short sprints and longer races included on the programme. In addition to the team contests on the track, the tug-of-war final promises to be very interesting, both among the competitors and the hundreds of parents and friends who are expected to go to the lake for the meet.

LARGE ENTRY LIST
One of the largest entry lists in recent years has been compiled for the event, and includes contestants from Craigflower, Cloverdale, Cedar Hill, Gordon Head, Keating, Lake Hill, McKennie Avenue, Prospect Lake, Royal Oak, Saanichton, Strawberry Vale, Tillicum, Tolmie and West Saanich schools.

With the runners coming from widely separated districts, the strength of the different teams will not be known definitely until Friday, but several of last year's stars are among the entries for the coming meet.

Particulars of the events, along with school initials, officials and entries, follow:

LIST OF OFFICIALS
President, P. C. Routley; vice-president, A. Bailey; secretary-treasurer, A. Cullen.

LOCAL BICYCLE RIDERS ENTER

Rush, Stewart and Robbins Competing in Province Cup Race To-night

Vancouver, May 20.—Knights of the "Iron Steed" tilt for bicycle racing supremacy on the lower mainland to-night in the thirteenth annual Province road race around Stanley Park. Fifty riders, not including mail entries, are now in the big event which gets away from the Georgia Street Causeway at 6.30 o'clock.

The riders, divided into five classes, make a complete circuit of the park and finish on the broad causeway, an ideal stretch for thrilling sprints. Class "A," the senior racing division, which usually manages to lift the Province Cup for the fastest time, has drawn nine contestants, three from Victoria. One of the Victoria boys is Lew Rush, class "A" winner last year. He has yet to hold the Province Cup, however, as Syd Luck, a class "B" contestant, made the fastest time in the 1930 event to carry off the trophy.

Syd Luck is racing in class "A" to-night in defence of the cup, and is one of the favorites. Victoria has two other outstanding threats in class "A," Donald Stewart and Glen Robbins, being noteworthy speed merchants. These will have plenty of trouble, however, beating such Vancouver men as Leo Marchiori, B.C. sprint champion; Frank Elliott, Pacific Coast twenty-five-mile titleholder, and Morris Robinson, an up-and-coming youngster.

SOFTBALL

Twenty-one more games will be played in the C.P.R. Softball League before the winners of the first and second halves clash for The Colonist Cup in the final, it was revealed in the draw released by the secretary yesterday evening.

All games will be played at Victoria West Park, with the Tuesday-evening fixtures, starting at 8.30 o'clock, and the Saturday afternoon battles getting away at 3 o'clock.

The schedule follows:

FIRST HALF
May 23—Empress vs. B.C.C.S.
May 26—Telegraph vs. E. & N.R.
June 1—Empress vs. B.C.C.S.
June 4—Empress vs. E. & N.R.
June 9—Telegraph vs. B.C.C.S.
June 12—B.C.C.S. vs. Empress.
June 16—E. & N.R. vs. Telegraph.
June 21—Telegraph vs. Empress.
June 23—B.C.C.S. vs. E. & N.R.

SECOND HALF
June 27—E. & N.R. vs. Empress.
June 30—B.C.C.S. vs. Telegraph.
July 4—Empress vs. B.C.C.S.
July 7—Telegraph vs. E. & N.R.
July 12—Empress vs. Telegraph.
July 14—E. & N.R. vs. B.C.C.S.
July 18—Empress vs. B.C.C.S.
July 21—Telegraph vs. B.C.C.S.
July 25—B.C.C.S. vs. Empress.
July 28—E. & N.R. vs. Telegraph.
July 31—E. & N.R. vs. Telegraph.
Aug. 4—Telegraph vs. Empress.
Aug. 8—B.C.C.S. vs. E. & N.R.

Results of yesterday evening's games follow:

Final For Uplands Club Title Carded Sunday Postponed

Owing to the fact that both Harold Brynjolfsson and Bob Morrison will be in Tacoma over the week-end, the thirty-six-hole final for the Uplands Golf Club championship between the pair scheduled for Sunday, has been postponed until June 7.

A medal competition will be held at the Uplands on Sunday, while on Monday a mixed foursomes competition will be held.

Watching the Majors

Still paced by Al Simmons, the Big Six battling race for the major league batting title, the victory left Philadelphia only half a game behind the first-place Pittsburghers.

The third-place Boston Braves continued their pursuit of the leaders by pushing Chicago deeper into fourth. Aided by three Cub errors, the Braves scored eight runs in the first inning and won out 9 to 3. "Ace" Elliott of the Phillies was in the hole again but this time it was not his own making. He relieved Jim Elliott in the ninth inning with none out and the bases full and retired the Pirates in time to save a 3 to 2 victory. The victory left Philadelphia only half a game behind the first-place Pittsburghers.

Pigeon Racing

The Victoria and District Racing Pigeon Society held a race over the week-end from Boston Bar, a distance of 182 miles. The birds were liberated in dense fog and light wind, resulting in a slow race. The winners followed:

J. Bowcott's Bud \$25.11
R. H. Green's Boston Baby \$25.20
T. Dunlop's Flying Tackle \$27.29
J. Denoni's Bert \$29.26
S. Knott's Louis \$30.05
J. B. Stewart's Dandy Dick \$47.55
Hornaby, Cuba Medford C. \$47.58
W. R. Tait's Going Some \$53.33
G. Stewart's Slowdown \$50.01
R. Margison's Dady B. \$53.39
Dr. Kelley's Red Owl \$104.11
J. W. Bland's Maybe \$103.01
J. B. Stewart won the pool and J. B. Bowcott won the special donated by Vancouver-Milling Company.

Last week R. H. Green won the special donated by Williams Meat Market.

Later week J. B. Green won the special donated by Kingham, Gillespie and Company, and J. Denoni won the special donated by Fernwood Meat Market.

The next race will be held from Spence's Bridge, a distance of 103 miles.

BIG GEORGE TWIRLS FINE BALL AND A'S CONTINUE MAD DASH

(Continued from Page 8)

and Derringer and made five errors. The Giants took things fairly easy against Cincinnati, using Young Bill Morrell on the mound for the full game and holding Cries-out of the line-up, but they won out easily, 9 to 3.

BRAVES WIN ANOTHER

The third-place Boston Braves continued their pursuit of the leaders by pushing Chicago deeper into fourth. Aided by three Cub errors, the Braves scored eight runs in the first inning and won out 9 to 3. "Ace" Elliott of the Phillies was in the hole again but this time it was not his own making. He relieved Jim Elliott in the ninth inning with none out and the bases full and retired the Pirates in time to save a 3 to 2 victory. The victory left Philadelphia only half a game behind the first-place Pittsburghers.

NATIONAL LEAGUE

Boston, May 20.—Eight runs in the first inning off Guy Bush gave the Braves sufficient margin to take the series opener from Chicago, yesterday 9 to 5. Hack Wilson hurt a finger in the sixth inning chasing Berger's triple and was forced to retire.

Chicago 5 9 4
Boston 9 10 0
Batteries—Bush, Blake, Teachout and Harbert; V. Cantwell, Cunningham and Spohrer.

Brooklyn, May 20.—The St. Louis Cardinals drove two Brooklyn pitchers from the mound in the eighth inning yesterday, scoring five runs to defeat the Robins, 6 to 2, in the series opener. Frederick hit a homer for Brooklyn.

St. Louis 6 9 1
Brooklyn 2 11 5
Batteries—Hallahan, Derringer and Mancuso; Wilson, Phelps, Quinn, Himesch, Moore and Lopez.

Philadelphia, May 20.—The Philadelphia Phillies defeated the Pittsburgh Pirates, 3 to 2, yesterday, in the first of a three-game series, here. The Phils batted Freese, Pirate hurler, for ten hits.

Pittsburgh 2 7 0
Philadelphia 3 10 0
Batteries—French and Phillips; J. Elliott, H. Elliott and Davis.

York Yankees rallied behind Henry Johnson to defeat the Indians, 8 to 6. Lou Gehrig hit his seventh homer in the first inning.

R. H. E.
New York 8 13 2
Cleveland 6 11 3
Batteries—Ruffing, Johnson and Dickey; Brown, S. Hoffer, Thomas and Sewell.

Detroit, May 20.—The Athletics scored their eleventh successive victory yesterday when they shut out the Tigers, 5 to 0, in the opening game of their series here.

Philadelphia 5 9 0
Detroit 0 2 0
Batteries—Turner, Hollerston and Hest; Gibson and Baldwin.

"Rounded" Performance!

Amazing Torsigraph tests prove
The Dictator engine the smoothest
Eight within hundreds of dollars
of its price!

NO car in its price class matches the velvet smoothness of The Dictator's 81 horsepower engine. Its Torsigraph record is smoothly "rounded" in striking contrast to the roughness common to ordinary eights, sixes and fours.

No car in its price class has the effective carburetor silencing and the full-power engine muffling that combine to give The Dictator Eight quiet and smoothness equaled only in high priced cars.

Studebaker goes to extremes not approached by any maker in this price class to remove vibration. The crankshaft of The Dictator engine has nine (9) bearings and is balanced not only statically but dynamically on machines that are marvels of precision.

What remains of vibration is further minimized by a crankshaft vibration damper. Dual carburetion and manifolding, feed exact amounts of fuel to each cylinder, avoiding "starving" of end cylinders and assuring even power impulses.

The Torsigraph, one of the most nearly infallible of automotive laboratory instruments, records accurately the vibration of any rotating shaft. The closer the record approaches a true circle, the more nearly perfect the balance of the crankshaft. Above are shown the Torsigraph records of The Dictator Eight (9) bearing crankshaft and those of two other eights of double the Dictator's price. Notice the smooth roundness of The Dictator graph contrasted with the irregularity, or "humpiness" of the other two.

And plus all this, plus the fact that The Dictator Eight has only 38.2 pounds of weight per horsepower, you also get Free Wheeling, greatest engineering advance since the electric starter. You get Free Wheeling's unique travel-smoothness, its freedom from clutch pushing, its 15% to 20% gas and oil savings, its officially approved increased safety.

Langford

A very jolly time was spent by many dancers at Langford Lakeside on Saturday night. Stan Cross and his Cru-

aders supplying the music. Colored balloons lent a festive air to the hall, which were afterwards distributed to the guests. A similar dance will be held next Saturday.

Every member of the Langford District Girl Guides was present on Saturday afternoon at Swastika, kindly loaned for the occasion by Miss L. M. A. Savory. After the routine business was conducted, a Refreshment Fair was held. A Guide by Capt. Doris Hibberdson. A surprise tea was served by the Guides to honor their captain, who unfortunately has to leave the company owing to her nursing duties at the Royal Jubilee Hospital. Two books and a handsome bouquet of flowers were presented to Miss Hibberdson, the whole company expressing their deep regret at losing their captain. Guide Betty Smedley was appointed company leader and Alice Heron, Stella Hincks and Margaret Smedley were voted patrol leaders. Miss Doreen Ward of Victoria will be the temporary captain of the Langford District Girl Guides.

Miss M. Powers and Miss May Powers of Meigs Street are residing at their summer home, Langford Lodge at Langford Lake.

Miss Woodcock of Esquimalt was a week-end visitor at Langford Lake as the guest of Miss Winifred Brown, Solway House.

Mrs. L. G. Wilkinson, Mrs. A. D. McClean and Miss Nellie Wilson were the tea hostesses at the Langford Tennis Club on Saturday afternoon. Tea was served on Sunday afternoon under the auspices of the tea committee.

Mrs. A. F. Bayles entertained a number of small children on Saturday afternoon in honor of her son Rodney's eighth birthday. The first part of the afternoon was spent playing in the sand at Ocean Beach Lagoon; the party returning to Woodstock Farm for a sumptuous supper at which a beautifully laid table was the centre of attraction. The young visitors included Miss Glenys Smedley, Miss Joan Sterling, Rodney and Theodore Bayles, Billy Ord, Kenneth Bayles, Jeffery Bullen, Keith Brown, Morton Welch, Mervyn Brown, David Moir, Jackie Le Quenne and Claude Hincks.

Strawberry Vale

The home of Mr. and Mrs. W. J. Quick, Wilkinson Road, was thrown open to the Wilkinson Road Young People's Club on Friday evening, when they held their annual banquet, about two dozen members sitting down to supper at 6:30 o'clock. Community singing followed the banquet after which dancing and games were enjoyed.

The Wilkinson Road United Church had a few of its former pastors visiting there on Sunday, among them being Rev. D. M. Pen of North Vancouver, who conducted the morning service, Rev. W. C. Frank of White Rock and Rev. Robert Wilkinson of Vancouver. Mr. E. R. McLean of Vancouver also addressed the Sunday school and congregation.

The Strawberry Vale Women's Institute held their regular card party in the Colquhain Hall with seven tables in play. Mrs. Crossman and Mr. Longland were successful in winning first prize, second prizes were won by Mrs. Gilman and Mr. Francis, and consolation by Mrs. Longland and Mrs. Austin (sub.). Hostesses for the evening were Mrs. Crossman and Mrs. Longland. The party was a most enjoyable one.

Mrs. Campbell of Vancouver was the guest of Rev. and Mrs. J. S. Switzer, Olya Road, on Sunday.

HONOR FOR EINSTEIN

Oxford, Eng., May 20.—Oxford University will confer an honorary degree of doctor of science on Professor Albert Einstein next Saturday.

BIG SURPLUSES OVERHANGING SILK AND WHEAT

New York, May 20.—Raw silk futures are down to \$2.18 a pound, which is only two cents a pound above the extreme low recorded last October. Over this commodity hangs the menace of 112,000 bales held by a Japanese government agency, which bought up the silk over a year ago in a futile effort to stabilize prices. Every effort of the trade to mark up an advance in futures is halted by the threat of these 112,000 bales being turned loose.

Like Brazil in its purchase of coffee, and the Farm Board in its purchase of cotton and wheat, the Japanese government shows a large book loss on its commodity transactions. The silk was bought at 1.150 yen, which is equivalent to about \$4.50 a pound.

BIG WINTER WHEAT CROP
The United States Department of Agriculture reported the winter wheat crop condition at 90.3 per cent, which is about equal to private estimates. The crop total was estimated at 652,922,000 bushels, which is a fair increase over the estimate of 619,000,000 bushels made by the department April 1. The output last season amounted to 604,000,000 bushels. Thus the estimation this spring will be larger than last spring, despite a substantial lowering of acreage when the crop was sown last fall.

Both wheat and cotton are approaching the end of their seasons. The new crop of wheat will start to move in July and the new crop of cotton will start to move immediately after the end of July.

It is not reasonable to expect an advance in the value of these two products when the crops are moving. The weight of sale of the actual commodity

ties coming into the futures markets in the shape of merchant hedges has a strong tendency to depress prices. Between now and the beginning of the crop movement ordinarily be the best period for a price advance, but this season even the "best period" is remarkably barren. The new crops are estimated and the current price level is on the basis of these estimates. Destructive weather affords the best hope to those bullishly inclined, but so far the weather has favored the growing crops.

Wheat, according to the government report, is in fine condition compared to other seasons, despite reports of drought in the northwest. In cotton some complaints are heard from the south regarding excessive rains and recent cool temperatures, but no one of the trade will venture the assertion that these conditions are worse than average.

In the sugar market spots were featured during the week by changes in freight rates by several refiners. Futures have been "making time" while awaiting final signing of the Chadbourne agreement.

Jordan River

Miss Clara Kingery of Langford is staying here for a holiday with Mrs. R. A. Johnston.

Mrs. R. G. Gordon and Gordon Lyall spent the week-end at their home here. Dr. Irene Bastow Hudson of Victoria paid a visit to the Jordan River School recently.

Mr. and Mrs. F. Terman are visiting in Vancouver.

F. Ames of Victoria visited friends here at the week-end.

Mr. and Mrs. W. Simpson and Marie, Mr. and Mrs. Alex Walker, Mrs. Wm. Walker, Mrs. A. Kirby, Mr. and Mrs. H. G. Rough, Beverly and Peter, P. Giacchini and J. Lines, were recent visitors to Victoria from Jordan River.

Miss L. Maynard visited her relatives, Mr. and Mrs. D. I. Walker, here on Sunday.

Jack Walker spent the week-end with his parents here.

Ruck Sues Anew For Commissions On Cannery Deals

Suit for \$9,187.47 commissions was launched today by Sidney Charles Ruck, cannery manager, through his counsel, Norman Whittaker, against Edward Rennieberg and Sons, cannery manufacturers.

This action is an outcome of an earlier action in the Supreme Court here for \$13,424 claimed by Mr. Ruck for commissions due him as agent for the company and under which some \$18,000 was garnered and held in court.

C. H. O'Halloran is defending the Rennieberg Company.

Barrels of Money, Police Count It

Hundreds of nickels played into slot machines in the city will be counted out at the city police station this week and returned to operators of the machines, following a decision of Magistrate George Jay yesterday.

While the confiscation of eighteen machines valued in the neighborhood of \$2,000, was ordered Monday, the operators will have the money which had been played into them. The money will be applied on paying the fines of \$10 each assessed by the court on storekeepers who had the machines.

It will be a big job. There may be between 800 and 1000 worth of nickels in the eighteen devices, and that makes quite a pile when it is separated into five-cent pieces. There may be an opening for an expert counter.

It's new! Different!

Three great grain foods in one delicious cereal.

THE Quaker Oats Company worked 17 years to develop these brown, confection-like pillows of rich, delicious nourishment... new, unparalleled cereal triumph.

Three great grain foods... oats, corn, wheat... are oven-blended to make Crackels. The lingering flavour, the crispness, are unlike any you've ever found in a single cereal before. They "crackle" out of the package... stay crisp in your cereal dish down to the last spoonful. Pour on as much cream or milk as you like. The crispness lasts—the flavour lingers! At all grocers.

Made in Canada by The Quaker Oats Company

Satisfactory Reports Given By All Branches Of Y.M.C.A. At Meeting

Despite Fall in Revenue and Increase in Expenditures, Local Association Debt Cut Down by \$1,430; Samuel Clark and H. S. Timberlake Replace Ira Dilworth and F. M. McGregor on Board; J. H. Croft and Harry Dawson Also Elected to Directorate; Tribute Paid E. Tomlin and R. W. Mayhew, Retiring Leaders; Group Reports Show Successful Year

Satisfactory reports from all branches of the association, embracing programmes wider than those hitherto undertaken, were given by officers and group leaders at the Y.M.C.A. annual dinner and banquet at the Y.M.C.A. yesterday evening. Highly successful seasons had been experienced in virtually every branch of athletics in which the clubs of the association had competed, and financial conditions, considering the general depression and the amount of assistance given free of charge by the association, were comparatively good.

During the evening, on the recommendation of the nominating committee, Samuel Clark and H. S. Timberlake were elected to fill the vacancies on the board of directors caused by the withdrawal of Ira Dilworth and F. M. McGregor, who explained it would be impossible for them to continue their activities owing to pressure of outside business. J. H. Croft and Harry Dawson were elected to fill the vacancies occurring in the group serving until 1932. V. R. Carver, E. J. C. Smith, E. B. Witter and Dr. M. W. Thomas, whose terms expired this year, were re-elected.

LEADERS HONORED

High tribute was paid to the work of Edwin Tomlin, president, and R. W. Mayhew, vice-president, during 1930 for the excellent work they had carried on during their lengthy affiliations with the association. Regret was expressed over their recent resignations from the board.

In a financial statement, in which he

compared the figures of last year with those of the fiscal year just completed, F. M. McGregor showed the association to have lowered its deficit from \$3,914 to \$2,244, despite heavy drains on assets and cuts in revenue.

Property expenses for the year ending April, 1930, totaled \$2,912, as against \$11,171 for 1931, showing an increase for last year of \$1,259. This was caused chiefly by painting and new installations.

FURTHER DROP

Dormitory revenues dropped from \$18,478 to \$11,478, showing a loss of \$7,000, chiefly caused by the fact that indigents kept by the association were unable to pay. A decrease of \$512 was shown in the membership, which stood at \$4,014 against \$4,526 in the previous year. A similar fall was seen in subscriptions, which totaled \$10,319 this year, against \$16,188 in 1930, showing a reduction of \$5,869. These totals show the revenue to stand at \$4,556 less than the previous year and the property expenses to be \$1,259 above that of 1930.

GROUP REPORTS

Reporting on the Boys' Work Department, W. H. Webber, chairman, referred to the purpose of that division, stressing the objective of developing boys both physically, mentally and spiritually. He touched upon the many clubs formed in the group, under the direction of F. V. Shoemaker, secretary, and the different functions held by them, including father and son meetings, Hi-Y activities and the Stunt Night. The value of the playground supervision, accompanied to a large extent by this section of the association, was also stressed by Mr. Webber, who said over 2,000 children benefited from the work.

Dealing with the Quod Club, E.

McLeod, president, spoke of its organization under Archie McKinnon, who promoted the idea with a view to bringing together the younger men in the association. Mr. McLeod thanked the staff for its advice and counsel and dealt with some of the functions of the group.

The soccer team's success was dealt with by Sam Hill, who told the gathering that while the "Y" had not secured any cups, the team had won a number of games and had gone into the semi-final for the Davis Cup. In speaking of the swimming club, Allan Stewart, senior leader in this group, told of the different successful gains held by the Y.M.C.A. and asked the gathering to support the Y.M.C.A. championship meet at the end of the month.

ENTERTAINED AND INSTRUCTED

W. Weldon spoke shortly on the Spielers' Club, saying all members had secured both entertainment and instruction from the public speaking group conducted under the leadership of Harold A. Beckwith. During the evening Alderman James Adams paid tribute to the showing of the association's soccer team, as well as other athletic groups of the Y.M.C.A. and wished them a banner year in 1931.

Tribute to the work of the association, and particularly to Archie McKinnon, Vivian Shoemaker and W. S. Maguire, for their excellent leadership, was paid by Rev. Bruce Grey, who spoke on behalf of the boys of Victoria who were interested in the Y.M.C.A. Appreciation of the work of L. A. Gale and other members of the staff was also voiced.

CHAMPIONS INTRODUCED

Pete Tyson and Laurie Moore, two of the boys who won championship medals in the British Columbia wrestling meet, were introduced to the gathering by Archie McKinnon. High commendation was expressed by the chairman, Mr. McGregor, for the unstinted work of the Ladies' Auxiliary of the association which had helped to materially aid financially in the arrangement of dormitories.

In a brief report, H. B. Witter, chairman of the physical department, sketched the activities of the branch with which he came into contact. The report in part read as follows:

"We wish to express our thanks to the other members of the staff for their co-operation and leadership, to the many other loyal leaders who headed up the various activities, and to the local press for its fine support."

"Last summer was easily the busiest we have had. The many features of the programme were swimming, track and field, baseball, tennis, picnics and social affairs."

"The Track and Field Club had about twenty-five fellows on their roll. They worked out three days of every week and made fine showing in all the meets they competed in. They excelled

FOODS AND HOT DAY FATIGUE

Most persons are easily fatigued on hot days. So common is this experience that we think it natural. But it is not. A properly fed person will be just as alert mentally and physically on hot as on cool days. It is acid residues in the blood from eating acid-forming foods that cause hot weather tiredness. Foods that alkalize and vitalize the blood and body cells keep one "in the pink" on the hottest days.

Roman Meal is the only alkaline cereal or grain food. It should be the grain food of choice for cereal, bread and cakes, especially during hot days. It can be eaten uncooked or soy-cold, recipes for both on package. Hot or cold, cooked or uncooked, it alkalizes the blood and pepa one up on hot days. Milk, vegetables and fruits also alkalize and should be freely used with Roman Meal in summer to build up resistance against winter strains and diseases. Write for free sample and for free booklet, "HOW TO KEEP WELL," to ROBERT G. JACKSON, M.D., 507 Vine Ave., Toronto 2, Ont.

(Advt.)

themselves at the Police Sports by winning every open event on the programme. We made two successful trips to Vancouver and rubbed shoulders with the finest athletes on the American Continent. Another trip to Nanaimo resulted in the winning of the Vancouver Island Rules. We also held a dual meet with Vancouver Y.M.C.A. and succeeded in beating them by fifty-five points to forty-seven. The club has extensive charge of the inter-high and private school track meet. This was our own original idea and proved a huge success and no doubt will be a yearly affair.

ACTIVE IN WINTER

"Our winter season has also been very active. The modern trend of physical education being to have more variety in programmes and to specialize with smaller groupings."

"This winter we had a problem which was partly solved by the addition of the special exercise room downstairs, which was extensively used by the boxing and wrestling clubs, and did not tie up the gymnasium."

"Our regular schedule of health classes ranged from the boy of ten to the man of seventy years, meeting twice a week for land and play. This was augmented by the following special groupings: Soccer, swimming, clubs, senior, junior, girls and ladies' swimming, classes, wrestling club, boxing, jiu-jitsu and basketball. Our Badminton Club is deserving of special mention, having over thirty-five members enrolled and two teams in the City League."

"The total attendance on our winter programme was as follows: Number of sessions, 910, with a total attendance of 16,321. Our physical director, with special reference to our membership, has been or service to the following organizations during the year, aiding them in many ways with equipment, items on programmes, officials, examiners, etc.: Rotary, Kiwanis and Gyro clubs, North Saanich Service clubs, Sons of England, Sooke Athletic, Chinese Mission, Girl Guides, Victoria High School, Normal School, Trail Rangers and Tuxis, and Saanich High School."

TEAMS SUCCESSFUL

"Our representative teams and individuals have traveled far and wide spreading our name and fame."

"Pete Tyson traveled to Winnipeg, Denny Walker to Banff, and teams performed in Vancouver, New Westminster, Duncan, Nanaimo and Everett, and we are trying hard to have representation on the Canadian Olympic team next year."

"The social side of life has also been cared for by thirty-four social affairs with a total attendance of 798. We also hope that by the way our groups have performed on and off the field of play that we have been a great factor in the Christian development of the boys and young men of our community."

General activities of the association were briefly summarized by W. S. Maguire, general secretary, in a report which reads in part as follows:

"The directors decided to have exterior metal and woodwork given a two-coat paint job, and needed roof repairs made, the combined work costing just below one thousand dollars. A new hotwater tank was installed which, owing to the generosity of Capt. Cardiner and Yarrow Limited, was placed in our basement free of cost, our only expense being that of fittings and work of connecting up. This has greatly improved the hotwater service for baths and dormitories. Other attention was given throughout the corridors and dressing-rooms especially, the whole effect being a much brighter and more attractive interior."

MORE ROOMERS, LESS RENT

"We have just come through the unusual experience of noting a drop of a thousand dollars in dormitory revenue, while still having almost total occupancy of rooms. The cause of this is the large number of persons whom we found it necessary to assist throughout the inclement winter season, knowing that no monetary recompense could be expected."

MEMBERSHIPS DOWN

"In common with the associations from coast to coast we have experienced great difficulty in attempting to produce the proportion of the budget which we normally expect from membership fees. Here again the fact that many workers were on short time, reduced wages, or were entirely unemployed made membership with us an impossibility for very many. Removals from the city were another deterrent factor. Only diligent effort kept the number on the roll comparable to former years."

"Under conditions existing we ought to produce the highest possible amount of revenue and curtail expenses to a low minimum," he said, referring to the finances of the association.

"As a community service the association building was the meeting place for half a hundred different organizations, entirely outside our membership, including practically every form of organization in the city. These represent the non-member groups who come to us."

"The other phase of this service is the large number of occasions when we have been privileged to take the association service to outside groups. This in the main has been accomplished through boys and physical divisions, but has overlapped these channels and found expression in every department of the work."

CHRISTIAN EMPHASIS

"To create in boys and men a desire for the best in life, we not only sought to give them a Christian education, but also to give them a Christian character. In all our activities, Christian principles were emphasized. We held when during the Christian emphasis was brought to bear. Discussion meeting examined the problems of men in the light of Jesus' way and method. Devotional retreats were arranged, personal conferences held with individuals and the Sunday night after-school devotional and services particularly lent themselves to the development of Christian ideals."

GOODYEAR MEANS
GOOD WEAR

WITH the standard grade of Goodyear Tires so superior that MORE PEOPLE RIDE ON GOODYEAR TIRES THAN ON ANY OTHER KIND—how vastly superior must be Goodyear's extra-service tire, the Heavy Duty? A stronger carcass—a heavier tread—Supertwist vitality—All-Weather tread safety—these are the features which protect you against tire delays and insure mileage much in excess of what you have previously enjoyed. In fact, Goodyear Heavy Duty Tires bought now will probably be still in service when you sell your present car.

1. Tread design carried down sidewall giving greater protection against wear.
2. Heavier tread, giving longer life and greater freedom from puncture.
3. New tread design, giving greater traction in the centre of the tire—and giving this traction throughout the life of the tire. The All-Weather Tread Goodyears have traction in the centre of the tread where it belongs.
4. Thicker sidewalls for longer life. Rib sidewall adds further protection against curbs and ruts.
5. Tread design spreads road shocks over the carcass.
6. Specially built, stronger, heavier Supertwist carcass to stand up under high speeds or heavy loads.

SATISFACTORY REPORTS GIVEN BY ALL BRANCHES OF Y.M.C.A. AT MEETING

(Continued from Page 12)

The song service reached a high mark of 237 on one occasion and throughout the whole winter season was a greatly enjoyed feature of our Christian programme.

"Again we record our great indebtedness to the Ladies' Auxiliary for the furnishing of additional rooms, for redecorating the whole dining-room and installing new electrical fixtures, replenishing of dormitory linen, while many lesser tasks have also engaged their attentions. The marvel is how they succeed in such really large undertakings when one knows the small number of the actual working force. Our warmest thanks are hereby tendered for all the many ways in which the appearance, comfort and convenience of the building has been improved.

VOTES OF THANKS

"We would conclude by cordially thanking all the friends who in any way have lent assistance in carrying the load.

"Outstanding among these are the Mayor and City Council, whose interest made possible the tax grant; the pastors of our city churches for many evidences of interest and approval; the young people's societies for enthusiastic backing of the song services; to the press for greatly-valued publicity. The support of members, subscribers and friends is also thankfully acknowledged.

CORPORATION OF THE CITY OF VICTORIA, B.C.

"OLD BOYS" OF ST. LOUIS COLLEGE GATHER FOR LAST TIME IN THEIR OLD SCHOOL FOR IMPRESSIVE CEREMONY

The above picture shows a group of the "old boys" of St. Louis College who gathered in the school grounds on Saturday afternoon and viewed for the last time the building in which they received their education in years gone by. The building now standing was erected in 1862 but will be torn down in July to make way for the new structure now going up and which will be opened in September. In the picture from left to right, sitting, are Nicholas Basso, W. W. Haines, Otto Weller, Frank Sera, Frank Partridge, E. J. Wall, Alderman R. T. Williams, Walter S. Chambers, George W. Wynne, H. P. McDowell, Monroe Miller, and Hippolyte Borde. Standing in the back row from left to right are Dr. J. L. Thompson, Harry Silver, Arthur B. Stewart, Edward McQuade, George Barnes, Styles T. Sehl, Edward Murray, William H. Grimm, Capt. Stanley Fraser, Frank J. Sehl, who was chairman at Saturday's ceremony; P. Egan, Jack McEllan, Charles Grimm, Jack Farrell, Edward J. Leonard, Louis Borde and C. O'Leary.

Joan M. Bridges, 121 Bushby Street, Victoria, B.C. (13).

edged, monetary resources, time and effort all having been put ungrudgingly at our disposal.

"Though economic conditions may make the task of financing a little harder for us, these same conditions make the service of the association the more essential and valuable."

During the evening a string trio composed of May Warnock and Dorothy and Gladys Lee contributed excellent instrumental selections, while songs by Fred Wright and Frank Spooner were also greatly appreciated.

A special vote of thanks was extended to the ladies who waited on table, the actresses, is at liberty on an appeal.

DAISY DE BOE SUES PUBLISHER

Asks \$100,000 Damages For Alleged Defamatory Articles

Los Angeles, May 20.—Daisy de Boe, former secretary to Clara Bow, film actress, filed suit yesterday against Frederick H. Ginnau, weekly newspaper publisher, asking damages of \$100,000 for the alleged use of her name in a series of articles purporting to reveal incidents in the life of Miss de Boe.

Publication of the articles resulted in the arrest of Ginnau by federal authorities on charges of sending obscene matter through the mails.

In the suit Miss de Boe alleged that the "statements, insinuations and innuendoes contained in the narratives about and concerning the aforementioned Clara Bow were and are, wholly and grossly false and untrue."

The plaintiff claimed Ginnau published the stories on false representations.

VANCOUVER HIGH SCHOOL WINNER

John Oliver Glee Club Wins Choral Shield at Festival

Vancouver, May 20.—Honors of the youthful choral contests fell to the John Oliver High School, Vancouver, in the contests of the Nicola Valley League, Knights of Pythias shield from the Duke of Connaught High School, New Westminster, which had held it for the past year, and which was the contesting choir. It was given 169 marks.

In the violin solo test, Margaret Bennett was the only entrant in the open class competing for a certificate. She was given an aggregate marking of 108, preliminary and final.

In the violin test class 80, the Bayview Parent-Teacher Association silver medal was won by Leonora Zastoldich, who took eighty-three marks. Maxwell Ward came second with a marking of eighty-three. There were twenty-one entrants in the preliminaries, all under thirteen years.

In class 78 for piano duets there were six entrants, competing for the silver medal presented by Robert Lyon. The winners were Myrtle Thomson, who was awarded 170 marks preliminary and final; and in various classes: Florence Russell, Margaret Pearson of Vancouver; and Dorothy Lyngby of Nanaimo, with 170, 168 and 169 marks respectively.

In the final tests for piano, class 73, under sixteen years, Pat Couston of Vancouver came out on top with an aggregate marking of 250, preliminary and final. He captured the silver medal and will be eligible for entry in the junior championship piano contests Friday evening. Second in line came Alice Grew of Crescent Beach.

WILLIAM CADEAN

Victoria Harbor, Ont.—"I had been in a rather rundown condition for about two years. I tried different medicines, also consulted a doctor but nothing helped me in the least. I had heard of Dr. Pierce's Adrenaline and read where one similarly afflicted had been relieved by the use of Dr. Pierce's Golden Medical Discovery. I tried two bottles of Dr. Pierce's Adrenaline and used four bottles of the Golden Medical Discovery and I felt like a new man. Anyone who wishes to write me direct for further information may do so if a stamped addressed envelope is enclosed."—Wm. Cadean, Box 170.

Sold by all druggists.

Send 10c to Dr. Pierce's Laboratory in Bridgeburg, Ont. If you want a trial package of any of Dr. Pierce's medicines.

(Adv.)

CLEVER DRAMA AT DOMINION STARS BROOK

"Tarnished Lady" Also Features Tallulah Bankhead, London Favorite

Eight years ago a little girl from Alabama played her first role on the Broadway stage. She was unknown to Broadway then—just as she, although a famous star with a nation at her feet, is unknown to Canadian picture audiences to-day.

She is Tallulah Bankhead, who left her native United States to become London's favorite "lady" before a breath of popularity had touched her New York stage work; who has returned to the United States, after eight years of adaptation, to begin to win the acclaim of her fellow countrymen in the moving pictures.

In "Tarnished Lady," the brilliant Donald Ogden Stewart drama, which is showing at Dominion Theatre now, Tallulah Bankhead, co-starred with Clive Brook, the suave English screen favorite, makes her bow to the moving picture public.

The story of "Tarnished Lady" is a story of society's "400" where money vies with love for marriage rights. Miss Bankhead marries Brook for his money, denying her love for a struggling young writer. When, after three months of marriage, she finds herself incapable of continuing her role of wife, she leaves her husband and attempts to recapture the love she flaunted. She is too late, but, in her trials, finds in the security of her husband's affection the love she thought lost forever.

AT THE PLAYHOUSE

To-day marks the last showings at the Playhouse Theatre of "The Ghost Talks," special Fox Movietone feature farce starring Helen Twelvetrees and Charles Eaton of the New York stage. These youngsters—for such they surely are—have the leads in a highly amusing all-in-dialogue picture which is jammed full of laughs from beginning to end. The work of everybody else in the cast is on a high plane of artistry, and those here who haven't seen it—and heard it—would do well to adjust their eyes and ears in the proper direction before it is too late.

AT THE CAPITOL

Douglas Fairbanks played the part of an extra in his own picture one day. It was a day in which he was not required for scenes for "Reaching for the Moon," with Bebe Daniels, the United Artists picture now showing at the Capitol Theatre.

Edmund Goulding, director, was "dubbing in" voices from offstage for a scene between Miss Daniels and Jack Mulhall. Goulding designated fifty extras who were to talk and laugh for the offstage noises.

Fairbanks quietly slipped in among the extras and added his voice and laughter to the offstage bedlam without Goulding's knowledge.

AT THE COLISEUM

Joan Crawford's fans sent such a bombardment of mail applause for her dancing scene in "Our Blushing Brides," that she is responding with an encore in "Dance Fools, Dance," her new Metro-Goldwyn-Mayer starring vehicle which is showing to-day at the Coliseum Theatre.

In the new film Miss Crawford not only performs a new ballroom tango with Lester Vail, her leading man, but does a daring solo dance in the underworld night club scene.

AT THE COLUMBIA

The Park Avenue heiress is disgusted with life until a red-hot river burns from the skyscraper going up next door into her silken boudoir, setting fire to the expensive rug. The husky young river rascal follows into the room to put the fire out—and then it is that a hotter fire surges up in the NANAIMO CONTRALTO.

In the contralto class No. 40, competing for a gold medal and for second, third and fourth place certificates, the winners were Myrtle Thomson, who was awarded 170 marks preliminary and final; and in various classes: Florence Russell, Margaret Pearson of Vancouver; and Dorothy Lyngby of Nanaimo, with 170, 168 and 169 marks respectively.

In the final tests for piano, class 73, under sixteen years, Pat Couston of Vancouver came out on top with an aggregate marking of 250, preliminary and final. He captured the silver medal and will be eligible for entry in the junior championship piano contests Friday evening. Second in line came Alice Grew of Crescent Beach.

Lingerie

finer... more luxurious
more economical

NEW lingerie, finer in many ways than you have ever seen before... that's what the 1931 Harvey spring and summer models offer you.

Here are three outstanding Harvey features:

1. FABRICS that are *thinner and stronger* than heretofore used for lingerie—tested thoroughly for wear and washing.
2. DESIGNS that excel even those of former years in smartness and finish.
3. PRICES that are far below what you formerly paid for lingerie of similar quality.

The garments themselves will win your enthusiastic praise... models for every gown, every occasion, every mood. Strictly tailored or gay with lace, or appliques... or bizarre... as you please. All models are specially suitable for the new straight line spring and summer frocks.

The Harvey name on the garment is your assurance of complete satisfaction, unexcelled wear and value. See the new styles at your local Harvey dealer's.

COAST MILLS GAIN 1 PER CENT IN OPERATION

New Lumber Business, However, Runs 5.72 Per Cent Under Production

Seattle, May 20.—A total of 347 mills reporting to the West Coast Lumbermen's Association for the week ending May 9 operated at 43.75 per cent of capacity, as compared to 44.13 per cent of capacity for the preceding week and 69.64 per cent of capacity during the same week last year. For the first eighteen weeks of 1931 these mills have operated at 40.64 per cent of capacity, as compared to 65.07 per cent for the same period in 1930.

Current new business reported by 221 identical mills was 5.72 per cent under production and shipments were 1.88 per cent under. New rail made business received during the week was about 500,000 feet less than the volume reported for the previous week; decrease of about 3,000,000 feet in the domestic cargo trade and 3,500,000 feet in the local trade were reported; while the export trade gained about 9,000,000 feet; making the total new business approximately the same as the previous week and 27,000,000 feet less than during the second week previous.

During the past twenty-three weeks orders for 221 mills have averaged 10.88 per cent over production. Inventories are now lower than at this time last year, the association stated, and unfilled orders are holding at about the equivalent of four weeks' production at current levels.

Production, orders and shipments at 221 mills for the week ending May 9 were reported in board feet as follows: Mills, 221; production, 1,713,074; orders, 110,426,499; shipments, 114,969,163.

Brentwood

About 100 guests were present on Saturday evening at the Institute Hall, Brentwood, when the M.S. Club held another of their popular dances, this in the nature of a springtime frolic. The hall was very prettily decorated. A hanging basket of wisteria and native and yellow iris was the centre decoration from which radiated mauve streamers to each corner light. The long tables in the dining-room were centred with bowls of pink tulips and mauve and yellow iris. During the interval John Bell rendered two vocal solos, "Take a Pair of Sparkling Eyes" and "I'm Alone Because I Love You." The music for the dancing was supplied by the Harmony Serenaders orchestra. Among those present were Mr. and Mrs. Shapland, Mr. and Mrs. F. Young, Mr. and Mrs. O. McCullough, Mr. and Mrs. Godwin Brandon, Mr. and Mrs. F. Pomeroy, Mr. and Mrs. H. Ennor, Mrs. A. North, Misses Ona Young, Margaret Johnston, Ruth Eborall, Edith Jean, Jean Anderson, End Mellow, Owen Anderson, Gladys Guy, Evelyn Goddard, Margaret Hall, Beattie Armstrong, Hilda Scott, Nancy Whitehouse, Gladys Durance, Jane Morrison, Annie Morrison, Myrtle Snider, Dorothy Butler, Violet Dunn, Aurora Alral, Grace Sluggett, Beattie Turgoose, Marjorie Hughes, Agnes Rice, Gladys Brown, Marjorie North, Alice Parkinson, Helen Parkinson, Beattie North, Mary Parkinson and Messrs. George Yardley, Roy Anderson, Harold Andrew, Jimmy Brandon, Clarence Sluggett, Charlie Oimsted, Merlin Atkinson, Jeff Reid, Noel Andrew, Duncan McPherson, Jack Durance, Lloyd Jones, Laurence Butler, Jack Tubman, F. Alral, John Bell, Douglas Hamilton, Alan Denny, Heck Lussie, Rex Hughes, Bob Hurwood, Leslie Matthews, Ralph Baskley, Walter North, Ed Brown, Mike Rice, Ben Anderson, Art Rowbottom, Maurice Kersey, Ray Kersey, Bert Huddleston and Mr. Muslow.

Mr. and Mrs. H. A. Blake returned home on Sunday from a holiday spent at Vancouver and Up-island points.

Mr. and Mrs. T. Feden and family spent the week-end at their summer cottage at Moodyville.

Mr. and Mrs. H. Ennor and Mr. and Mrs. P. Nelson of Victoria were the guests over the week-end at the home of Mr. and Mrs. T. Haddon, Clarke Avenue.

Mrs. Phil Kelly left on Friday to join her husband at Snowflake, Alberta, after spending a few weeks with her parents, Mr. and Mrs. R. W. Sluggett, Brentwood.

W. O. Wallace returned home on Sunday from a business trip to Nanaimo.

The Brentwood-Mill Bay ferry will be off the run for the next few days, having gone round to Yarrow's on Sunday for annual overhaul.

MINING STOCK INDEX LOWER

Canadian Press

Ottawa, May 20.—The weighted index number of twenty mining stocks computed by the Dominion Bureau of Statistics on the basis of 1929 equals 100, was 78.7 for the week ending May 14, as compared with 80.9 for the previous week.

Seven gold stocks fell from 76.1 to 75.3, four gold copper stocks from 102.3 to 94.9 and five silver and miscellaneous stocks from 92.3 to 93.7.

Among the gold stocks the weekly average prices behaved as follows: Hollinger dropped from \$8.09 to \$7.85; Kirkland Lake from 76 cents to 74 cents; McIntyre from \$24.47 to \$23.47; Premier from 77 cents to 75 cents; Tex Hughes from \$7.50 to \$7.77 and Vipond Consolidated from \$1.05 to \$1.02. Dome mounted from \$10.90 to \$11.04. Lake Shore from \$27.03 to \$27.68 and Wright Hargreaves from \$23.92 to \$24.01.

Average weekly prices were lower for all of the gold copper stocks. Amulet declined from 26 cents to 24 cents; Hudson Bay from \$4.30 to \$4.44; Noranda from \$25.33 to \$23.30 and Sheritt-Gordon from 85 cents to 77 cents. Silver and miscellaneous group, four stocks remained at the same price, while Waplesing fell from \$1.21 to \$1.13.

Matchosin

The regular meeting of the St. Mary's branch of the Women's Auxiliary to the M.S.C.C. was held on Thursday afternoon at Glenora, the home of Mrs. Fergus Reid. The regular business was transacted and the date for the garden party set for Wednesday, June 24. The Misses Chagwin have loaned their grounds for the occasion. Mrs. Luky read a chapter from an interesting book on Japan. Mrs. Luky and Mrs. Reid were hostesses and Mrs.

Witty's offer of her home for the next meeting was accepted. The fortnightly meeting of St. Mary's branch of the A.Y.P.A. was held Friday evening. It was decided that for the summer months there should be one business meeting on the first Saturday in each month. The main feature of the evening was an interesting address given by Mr. Lee of William Head, who gave an account of his experiences in the Arctic. Refreshments were served at the conclusion of the meeting.

Plans Made For Shearing Contest

Special to The Times

Metochin, May 20.—A meeting of the executive of the Metochin Sheepbreeders' Association was held at the home of Gavin P. Weir, when final arrangements were made for the lamb show and shearing contest, J. S. Edwards was appointed superintendent of the show with power to choose his assistants. The reception committee are: Mrs. G. F. Waide and Mr. and Mrs. R. D. Young. T. K. Harrop will judge all lamb classes. A. Morton and Dr. A. Knight, chief veterinarian of the Dominion and Provincial Departments of Agriculture, will judge the wool classes and the shearing. Afternoon tea will be served in the hall by ladies of the association. Mrs. Philip Thorne being convener, assisted by Mrs. Herbert Parker and Mrs. Marcorie. In addition to the usual classes there will be awards for fleeces of coarse and fine wool of this year's clip.

The first prize for fine wool will be a cash prize of \$5, given by the Metochin and District Community Club. The first prize for coarse wool is a cash prize of \$5, given by the Island Freight Service.

OLDSMOBILE

THE MAN WITH THE "HAIR-TRIGGER" TEMPER

He was irritable at the office, and grouchy at home. His enemies increased, his friends became fewer. Then one day his doctor told him the truth. He had been handicapped by constipation for years. It had brought headaches and constantly irritating ills to make him "touchy." It had stolen his energy and good nature.

His doctor suggested eating Kellogg's ALL-BRAN regularly. And in a few days he was a changed man, cheery, ambitious—and on the road to success and happiness.

Constipation is so unnecessary. It can be overcome so easily, so pleasantly by eating delicious Kellogg's ALL-BRAN: a delightful, ready-to-eat cereal.

Two tablespoonfuls of Kellogg's ALL-BRAN daily are guaranteed to prevent and

relieve both temporary and recurring constipation in stubborn cases, serve ALL-BRAN with each meal.

Use this natural method and avoid the dangers of habit-forming pills and drugs. ALL-BRAN also supplies iron, which builds up the blood.

Serve ALL-BRAN with milk or cream, with fruits or honey added. Delicious when combined with canned peaches. Use in cooking too. Sold by all grocers in the familiar red-and-green package. Made by Kellogg in London, Ontario.

Pupils of Miss Mona Jewell
Delighted Audience at
Playhouse

The annual dance recital by pupils of Miss Mona Jewell was given Monday evening at the Playhouse. The capacity audience was generous with applause and recalled many of the acts.

the baby artists being especially popular. The programme included thirty-six numbers as follows: The sun, Dolly Carey; the marigold, Beatrice Stromkins; the primrose, Cecile Pagett; the lily, Francis Ockwell; the rose, Joyce Stevens; the poppy, Doreen Brown; the forget-me-not, Ella Webster; the frog, Beryl Emery; the daisy, Peggy O'Toole; the humble bee, Beryl Emery; the butterfly, Gloria Ball; the pearly, Pearl Lewis; and night, Evelyn Curtis.

FOUR SQUARE BISHOP HERE

REV. W. C. PARHAM

Rev. W. C. Parham, known as the Bishop of the Four Square Gospel churches and missions in Canada, has arrived in Victoria to meet with members of the movement here. "I believe in the old-time gospel with its messages that fill and songs that thrill," he said in discussing modern religious trends and changes in the attitude of the people towards the formal churches all over the world. At the Vancouver Four Square Church, which is the headquarters of the church in Canada, where he is now chief pastor, there is an active adult membership of 550, an average Sunday school attendance of 450, with a choir of seventy and a forty-piece band and a twenty-five-piece orchestra, Bishop Parham said. Before entering the Vancouver field, he was supervisor of the Four Square Gospel Church of Southern California. While here, he will speak at two public meetings to-night and to-morrow evening at the Four Square Gospel Lighthouse, Douglas and Johnson Streets.

P. B. PRIESTLEY IN VANCOUVER

Finds Chicago Not So
"Hard Boiled"

Vancouver, May 20.—A new novel half completed, a month's holiday in Tahiti behind him, and with pleasant memories of a recent United States tour during which he found Chicago not at all the "hard-boiled" place it is pictured, and Hollywood one of the most interesting places he has ever visited, J. B. Priestley, English author,

THE BEST MONEY CAN BUY

Only Budweiser quality can insure the results you expect. There's nothing like Budweiser Barley Malt Syrup... A finer product is not available at any price—it is "the best money can buy," and will establish the fact that it takes precedence over all others for flavor and wholesomeness.

Hear Tony Caboch, Anheuser-Busch's one-man radio show every Saturday night over the Columbia Broadcasting System.

The Graf Zeppelin—the first dirigible to encircle the globe—covered over 19,000 miles in 21 days, 7 hours and 34 minutes—the world's record for air travel.

The RECORD SPEAKS for ITSELF

THE record-holders are in a class by themselves; for only one dirigible—and one cigarette—holds the record for endurance and distance—for quality and public favour.

Turret's record speaks for itself. Everything about them must be right, for these cigarettes to have attained such widespread popularity.

After all, nothing can replace good, honest tobacco; grown and ripened right out in the field under nature's own sunlight—nothing artificial about that—and the high quality is "inbred."

Mild and Fragrant Turret CIGARETTES

SAVE THE VALUABLE POKER HANDS

setting foot on Canadian soil for the first time, reached Vancouver from the south.

Pausing here until Wednesday when he will leave over Canadian Pacific lines to sail aboard the liner Empress of Australia from Quebec, June 20, the author of the "Angels Pavements" and "Good Companions," said he wished to set at rest once and for all the misunderstanding which arose on the day of his arrival in New York two months ago. He denied that he had criticized United States customs and habits to newspapermen who met the ship he was traveling on at Manhattan. "It was all a misunderstanding," he declared. "Everything Mrs. Priestley and I said to the interviewers was garbled and elaborated, and the result was a veritable furore in the New York papers."

ENJOYED HIS U.S. TOUR
Far from wishing to criticize things American, which he deprecated as one of the shortcomings of most Englishmen, Mr. Priestley said he had thoroughly enjoyed his North American tour, particularly the western portion of it. Hollywood and San Francisco appealed to him most strongly. In the movie capital Greta Garbo and the Marx brothers proved interesting personalities, he said. "Chicago was a disappointment," the popular English author said laughingly. "The celebrated bad men failed to appear. Once, however, a huge icicle fell with a roar from the top of a high building and there was a panic on the streets. This was the only incident of note during my stay in the middle-western metropolis."

Leaving for the east, the Lancashire writer and Mrs. Priestley will stop at Banff before going to Quebec to join the Empress of Australia.

SOCIETY FIXES DATES FOR SHOW

Officers Are Named at Annual Meeting of Island Horticultural Group

Dates for the annual show of the Vancouver Island Horticultural Society were permanently fixed as the last Friday and Saturday in April after some discussion at the annual meeting yesterday evening.

About thirty representatives from the city and up-island points attended the gathering held in the City Council chamber.

Election of officers was one of the main items of the evening. Alan Morrell being named again for the office of president. Other officers for 1931 are: First vice-president, L. E. Taylor; second vice-president, Dr. C. T. Hilton; Port Alberni; third vice-president, E. M. Straight; Sidney; treasurer, R. V. D. Guthrie; secretary, F. R. Leigh.

Reports of the president, secretary and treasurer were read and adopted. It was decided to appoint a special committee to draw up a list of books on gardening which it is hoped may be put on the shelves of the public library. It was announced the Portland association would forward an exhibit for the next show here.

This Practical Beautiful Inexpensive KITCHEN FLOOR...

N. Y. Market
Analysis

The Wall Street Journal to-day says: "The investment trusts have been selling stocks steadily in the past few weeks. Not only have those in this country been disposing of part of their holdings, but foreign trusts also have been credited with selling. In fact there has been considerable supply coming from abroad. The consistent offerings from abroad have been larger than in some time. Foreign speculative interests have been putting out short lines again. These sellers covered large amounts of stocks in March at a substantial profit, but have turned bearish again."

"Wall Street and business is watching the wage developments closely. Despite the knowledge that official Washington would be opposed to a reduction, it is known that serious thought has been given to the necessity of bringing down expenses in many lines. A serious attempt to reduce the pay of railroad and steel workers would provide the test, and unless conditions change materially for the better, it is considered probable that some action will be taken before mid-year. Leaders of industry would like to avoid a wage cut, but economists argue that in a readjustment wages must be included and take its share with commodities."

"Keen interest will be shown in the meeting Friday of the American Iron and Steel Institute, because leaders of the steel industry from every section of the country will be here. There will be many informal discussions throughout the day, and no doubt the subject of wages will be one of the chief topics. Quite a few small steel makers cut wages some time ago, but the larger companies continued, the scale despite adverse conditions and the lower selling prices."

"Sentiment has not changed. Conservative observers are not yet willing to recommend the buying side because they insist that there is on sign of the liquidation having been completed. They favor using any technical rally to reduce long commitments and then remaining on the side line."

International Bank
Officers Work Fast

Basel, Switzerland, May 20.—It took only thirty-five minutes for the central bankers and other delegates from twenty-four nations to settle their business at a meeting of stockholders of the Bank for International Settlements.

Since his report had previously been submitted, President G. W. McGarrath confined his remarks to a brief speech of welcome. When he asked for discussion nobody had anything to say and in rapid succession his report was adopted and a dividend of six per cent was voted.

To help countries in need of economic development, especially concerning promotion of export, the bank has decided to set aside 150,000,000 francs for middle-term credits, hoping this example will stimulate others.

Sugar melt of fourteen United States refineries from January 1 to May 9 totalled 1,425,000 long tons, against 1,670,000 in like 1930 period; deliveries 1,245,000 against 1,460,000. Lower declared regular quarterly dividend 75 cents on common, payable June 30, record June 13.

N.Y. Market Gossip

(By Logan and Bryan)

World copper output in April 128,000 tons, against 136,458 in March, 1930, says April, 1930.

American Brass cuts prices on all copper and brass material 1/4 cent.

At a special meeting of Gardiner Motor, June 16, stockholders will vote on proposed reduction in par value of stock to \$1 from \$5. Directors propose that part of surplus thus created be used to buy 30,000 shares of Detroit Aircraft Corporation. Stock now owned by the company to be distributed to stockholders.

Bank of the Nation of Argentina shipping \$2,540,000 in gold to National City Bank.

Alaska Sineau continues to be a favorite with interests working for higher prices. Buying recommendations are plentiful.

Pan American Petroleum Transport earned \$4.02 on combined common and common B in 1930, against \$2.92 in 1929.

John Aluminum declared dividend 37 1/2, payable July 1, record June 15.

Texas Corporation declared quarterly dividend of 50 cents, payable July 1, record June 1. This places the stock on a \$2 annual basis, against \$3 previous.

Report of Bellanca Aircraft for year shows loss of \$154,139 after expenses.

Pacific Mills Limited Canadian subsidiary of Crown Zellerbach Corporation with mills at Ocean Falls, B.C., was brought into direct touch with the outside world recently when B.C. Telephone Co. established a radio link between the pulp and paper town and Campbell River near the north end of Vancouver Island. Ocean Falls is about 300 miles north of Vancouver. The radio telephone is utilized for the 210-mile lap between Ocean Falls and Campbell River, from which point to Vancouver the link is completed by wire.

Standard Gas and Electric declared regular quarterly dividend \$1 on \$4 preferred, payable June 15, record May 26.

Sieberting Tire and Rubber Company, April, 1930, statement shows profit \$60,769 after interest and depreciation, but before federal taxes, against \$4,700 in March.

Refined sugar reduced five points to \$4.35 by Goodrich Sugar.

American Surety declared quarterly dividend \$1, placing stock on \$4 annual basis against \$3 previously.

Healthy comment on the future prospects of Borden Co. is heard in brokerage quarters, many houses recommending the stock for long pull accounts, and as an admirable switch from short contracts. Borden is held widely on the coast as the company that obtained control of the Dairy Milk Co. a few years ago. By an exchange of stocks last year Borden continued its policy of expansion by acquiring Maria Country Milk Co. and others by an exchange of stock. The total assets have increased 125 per cent since 1927.

Daily production crude oil in United States in week ended May 16 totalled 2,481,292 barrels, a decrease of 29,747 barrels, according to Oil and Gas Journal.

Callahan Zinc Lead Co. quarter ended March 31 net loss \$13,700 after development costs, expenses, etc., but before depreciation and depletion, against loss \$5,643 in first quarter 1930.

First National Stores Incorporated declared regular quarterly dividend 6 1/2 cents on common, payable July 1, record June 5.

BEAUHARNOIS
INQUIRY IS
TO START SOONCommons Will Be Asked to
Have Committee Begin
Hearings at Once

Ottawa, May 20.—Investigation of the Beauharnois Power Corporation, its subsidiary companies and its hydraulic development scheme in the St. Lawrence area of the St. Lawrence River will be made by a Commons committee. Yesterday, after a day-long debate on the corporation, its financial make-up, its probable effect on the canalization of the St. Lawrence and whether it was living up to its charter rights and privileges, Premier Bennett said he was of the opinion, and the government was of the opinion, an investigation of this matter should take place "without delay." He proposed that the question of what individuals might make or might have made. The necessary motion to refer the matter to a committee would be made immediately.

For some time Premier Bennett has been gathering information on the Beauharnois project, he informed the House. It had been shown by government engineers that the Beauharnois Canal, now under construction, was larger than provided for under the original order-in-council.

"The St. Lawrence River undoubtedly is being devastated if it is left as it is," he said. "The original lease granted to the company by the province of Quebec plus the lease to take away 30,000 second feet additional, is given effect to," the Premier declared.

Robert Gardiner, U.F.A. leader, precipitated the Beauharnois discussion yesterday evening when he moved adjournment of the House "to discuss a matter of urgent public importance."

It developed into one of the most hectic days of the session. Speaker Black called several members to order for using extravagant language and otherwise for transgressing the debating rules of the House.

After the discussion, at the evening sitting, Mr. Gardiner withdrew his motion.

GARDINER'S MOTION

Robert Gardiner, U.F.A. leader, precipitated the Beauharnois discussion yesterday evening when he moved adjournment of the House "to discuss a matter of urgent public importance."

It developed into one of the most hectic days of the session. Speaker Black called several members to order for using extravagant language and otherwise for transgressing the debating rules of the House.

After the discussion, at the evening sitting, Mr. Gardiner withdrew his motion.

LARGE QUESTION

Rt. Hon. W. L. Mackenzie King, Liberal leader, said the question brought up by Mr. Gardiner was a very large one. It involved the rights of the provinces and the Dominion. It involved the question of power rights as yet undetermined. The question was as large as any which could very well be brought before the House.

The opposition leader said the Dominion had merely the power to safeguard the interests of navigation. It obtained this power under the Navigable Waters Protection Act. But the charter for development of water rights must be secured from the province. Development rights had been secured from the province of Quebec. If there was anything wrong, the place for its discussion was the floor of the Quebec Legislature. The function of the Dominion was merely to pass on the diversion of waters from the navigation point of view. The province of Quebec insisted it had the right to lease the power.

PARLIAMENT HAS POWER

As directed by the act, the former government had acted by an order-in-council in dealing with the application from the Beauharnois Company, continued Mr. King. But, he asserted, Parliament had the right to annul that order-in-council. It was passed two years ago, and yet no member had moved for its annulment.

Mr. King said the reason the Beauharnois Canal had been constructed wider than the Welland Canal was in order that navigation rights might be amply protected.

BOND QUESTION

J. S. Woodsworth, Labor, Winnipeg North Centre, protested against Premier Bennett's suggestion that difficulties might arise in the cancellation of bonds which had been bought by people in good faith. If the whole undertaking were illegal, the bondholders had protection in law, the Labor member argued, adding that "the man who receives stolen goods has no protection under the law." It seemed remarkable to him that a company, which had offered bonds to the public and had succeeded in selling them, was immune under the law.

Water powers in the St. Lawrence River should be under public control or developed under public ownership, said Mr. Woodsworth.

MISS MACPHAIL'S VIEWS

Miss Agnes MacPhail, Progressive, Southeast Grey, Ont., resuming the debate after the dinner recess, said Canada had followed pretty consistently the policy of giving away natural resources, thereby making millionaires on the one hand and struggling Canadian citizens on the other. She believed the handing over of power rights to the Beauharnois company came in that class.

Action of the Hydro-Electric Commission of Ontario in awarding the Beauharnois company a contract for 250,000 horsepower for fifteen years had enabled the company to sell its bonds more readily, Miss MacPhail declared.

TO ASK QUESTIONS

M. M. Campbell, Progressive, MacKenzie, Sask., expressed delight that Premier Bennett had promised to have the whole question referred to a committee of the Commons. The members of the House would have an opportunity of questioning the promoters of the scheme. They would have to lay their cards on the table, he said.

The members had to thank those of a rival financial group for much of the information they had already obtained about the project. Members of that group should also be called and questioned, he said. Technical advice should be obtained by the committee as to how the Beauharnois company should reimburse the people of Canada for the valuable resources it had obtained, if the company were permitted to go ahead with the project.

WELCOMED BY BOTH SIDES

Investigation would be welcomed as much by the people interested in Beauharnois as by those making the charges, said Agnes MacPhail, Progressive, St. Antoine, Montreal. It was the biggest project ever undertaken by Canadians, said Mr. Bell. It would cost \$75,000,000 and would be the largest canal in the world outside of the Panama Canal. Having brought his charges, Mr. Gardiner must bear the responsibility of supporting them, he said. The full purpose of the charges made in the House against prominent Canadians must not be shifted. Every opportunity must be afforded those affected to defend themselves.

CHOOSE LUMBER

PROMOTER FOR
B.C. IN BRITAINLoren L. Brown to Take
Sales Post in London Some
Time in July

Vancouver, May 20.—Loren L. Brown, who was British Columbia lumber commissioner in Great Britain under the late Liberal Government, has been selected as special sales agent in London for the province. He will go to England some time in July to take up his duties.

Official announcement of Mr. Brown's appointment was made yesterday by R. Abernethy, president of the B.C. Lumber and Shingle Manufacturers' Association. Selected by lumbermen at a final meeting yesterday, his appointment was confirmed immediately by Hon. N. S. Loughheed, Minister of Lands, who some weeks ago offered in behalf of the government to contribute half of the expense, up to \$15,000, of maintaining a special agent in London.

Mr. Brown's selection is the result of long negotiations after a study of market conditions in Great Britain for the last year. He is regarded by lumbermen generally as eminently qualified for the post.

LONG EXPERIENCE

Mr. Brown is a native of Canada, who has spent many years in British Columbia. For a number of years he was in the service of the Dominion Government in forestry work and in forest products laboratory investigations.

In 1920 he was appointed as British Columbia Government lumber commissioner at Toronto, where he performed very valuable work, and in 1923 was sent to London to take charge of the government's forest exhibit at the Wembley Exhibition.

On returning from England he left the government service and engaged with the H. R. MacMillan Export Company, having charge of sales to the United Kingdom and European continent.

PAY REGULAR DIVIDENDS

Montreal, May 20.—Montreal Cottons has declared the regular quarterly dividend of \$1.50 on the common and \$1.75 on the preferred stocks, both payable June 15, record May 30.

Windsor Hotel declared regular quarterly dividend of \$1.62 1/2 on preferred payable June 1, record May 15.

To those who do the
Work of the NationAn Advertisement about the
Dominion of Canada
Conversion Loan

CANADA has a job on its hands. Between now and 1934, more than a thousand million dollars are coming due for repayment to War and Victory Loan Bondholders... The job might be put off—but it shouldn't be.

To procrastinate would be unwise. The beneficial effect on business of making a success of this Conversion Loan is incalculable. It will assist in bringing about a restoration of confidence. It will ring about the world as an evidence of the complete faith which Canadians feel in the future of their country.

It will enable you to re-invest your savings in the premier security of Canada,

at a desirable rate of interest, for an extended term.

The present rate of interest (with tax exemption, if any) on Bonds eligible for conversion will continue until their maturity date. After that, 4 1/4 per annum for at least another fifteen years and—possibly—twenty-five.

Convert your Bonds now for continued investment safety and satisfactory income.

Conversion applications are invited to a total of \$250,000,000, but the Minister of Finance reserves the right to increase or decrease this amount. Subscription lists will be closed on or before 23rd May, 1931. Bondholders who wish to avail themselves of this opportunity for re-investment should therefore act without delay.

Bonds of the following issues are exchangeable for Bonds of the 1931 Conversion Loan:

War Loan	3%	due 1st October, 1931
Renewal Loan	5 1/4%	due 1st November, 1932
Victory Loan	5 1/4%	due 1st November, 1933
Victory Loan	5 1/4%	due 1st November, 1934

Your Bond Dealer, Broker or Banker will arrange for the conversion of your Bonds without expense to you.

DOMINION OF CANADA
1931 Conversion Loan

Published by authority of the Minister of Finance, Ottawa, Canada.

Should Wealthy Girls Have Business Training? Dorothy Dix How Wise Is the Wealthy Man Who Plans to Give His Daughters a Thorough Business Training, for He Thereby Protects Them Against Want and Fits Them to Become Thrifty Wives

A RICH man said to me the other day that he intended not only to have his daughters given a thorough business education but to take them into his office and have them earn their own living, for at least a year. "I am going to do this for many reasons," he said. "First, because it is the best insurance that I can give them against want. Of course, now I can lavish money upon them. But the wheel of fortune turns continually and the millionaire of to-day becomes the pauper of to-morrow."

"I may lose my money and not be able to stand between my daughters and need, but if I have made them thoroughly trained business women I have given them something that no breaking bank or fluctuating stock market or depreciating real estate values can take away from them."

"They will have something within themselves that will always protect them against starvation and homelessness and want and that will keep them out of the ranks of that pitiful and forlorn sisterhood of women who have seen better days, and who, when they have lost their fortunes, are the most helpless creatures on earth because they know no way by which to earn a dollar."

"Every one of us could recite a dozen tragic tales of women who have been lapped in luxury all of their lives, who have been taught only how to spend money, not how to make it, who by the death of a father or husband, or the failure of some investment, are suddenly thrown out on the world to make their living, and who, having no trade or profession, are as defenceless as a man would be if he went out to fight a battle without a weapon in his hand."

"All of us hand out thinly-disguised charity to these women in the way of buying dauby paintings or subscribing to magazines we don't want, and with pity we watch them break mentally and physically under the strain of a burden they have not been fitted to bear."

"When poverty comes to a woman who has not been taught to be self-supporting, it wrecks her; but when it comes to a woman who has a good profession it is merely a temporary unpleasantness. That is why my girls are going to be taught how to take care of themselves if they need to."

"And I am giving my girls a thorough business training because I want them to be able to take care of the money I leave them when I die. I don't want them to be the prey of trustees and high-powered stock and bond salesmen and grafting relatives."

"Most women are so ignorant of business that they don't know the difference between a government bond and Wild Cat preferred, and the higher interest that is promised them on an investment, the more sure they are to put their money into it, without even giving a glance at what is behind it. They are the victims of any glib talker and sign on the dotted line where he indicates, or they lend their money without security to Cousin John because he prays so beautifully at church."

"In former times girls were not taught any trade because it was taken for granted that they would marry a living, but this is by no means a certainty now and, anyway, whether a girl marries or not, for her to be self-supporting is the best guarantee of matrimonial happiness that she can have. For one thing, the self-supporting girl doesn't have to marry for a meal ticket, so she can wait until the right man comes along. She doesn't have to take just anything that promises food and clothes and shelter, so she has a better chance of making a wise choice of a husband."

"Then the self-supporting woman, or the woman with money, is financially independent, and even a husband treats a wife with her own pocket-book with more respect and consideration than he does the one whom he has absolutely in his power because she has to come to him for every penny."

"And if a girl makes a bad marriage and gets a husband who mistreats her, she doesn't have to stand it if she is able to support herself. It is the women who have never been taught any way of making a living and who would starve if they left their brutes of husbands who have to put up with drunkards and rouses and stand for being cursed and kicked about worse than a dog."

"And, on the other hand, nothing fits a woman to make a good wife so much as having earned her own living. She knows the sweat and weariness and toll that go into the earning of money and she doesn't throw it away, she handles it carefully. She knows the strain of business life and so she has a sympathy and understanding of her husband that makes her far more considerate and reasonable in dealing with him than is the purely domestic woman."

"So for these and a hundred other good reasons I am going to have my daughters trained to be thorough business women."

Little Trips Into Nature BUTTERFLIES

It is easy to make a pun about butterflies. "When warm weather comes," we may say, "the butter flies." Some housewives feel that butterflies fly away the whole year around. If we trace the name of the insect, we find it has something to do with butter. Because so many of the insects have the yellow color found in butter, the name "butter-fly" was given to them. Millions and millions of butterflies are yellow; but other millions have other colors.

Monarch Butterfly Taking a Meal

UNCLE RAY Among the bright-colored members of the tribe are monarch butterflies. Their wings are largely red and black, but also have orange, white and yellow. Like some other butterflies, the monarch flies southward before winter comes. In summer it is seen again in northern places.

The female monarch lays eggs in milkweed sprouts, and from the eggs come caterpillars which have black and yellow stripes or bands, with green in between. We may not like the looks of this smooth caterpillar, but it will do us no harm. It wants to eat milkweed and nothing else.

After reaching a length of about two inches, the caterpillar stops eating and spins a cocoon. Less than two weeks later it becomes a butterfly!

The change from worm to butterfly is one of Nature's magic deeds. Think of a crawling caterpillar being transformed into a lovely flying machine!

The smallest known butterfly is found in the island of New Guinea. Its color is blue, and it has a wingspread of only half an inch. This means that each wing is less than one-fourth of an inch broad.

The largest known butterfly is also found in New Guinea, alongside the headwaters of the Mambera River, about 8,000 feet above sea level. This insect is called the Alexander butterfly. The males are colored black; yellow.
